## Formosa Raid Costs Japs 221 Planes; 35 Ships Blasted

### Disclose Heavy Losses Of Japs In Formosa Raid

Sixteen Cargo Ships Sunk; 19 More Damaged; 221 Planes Destroyed

### SHORE DEFENSES HEAVILY BLASTED

PEARL HARBOR, Oct. 13.—Pacific fleet headquarters announced today that 16 Japanese cargo ships were sunk and 19 other vessels damaged and 221 planes destroyed in the Oct. 11 raid on Formosa by planes from a speedy United States carrier task force.

In carrying out the daring strike against one of Japan's most important bastions in the inner defense circle, Admiral Chester W. Nimitz reported that American losses were 22 aircraft and that there was no damage to surface ships.

There was no confirmation from Nimitz concerning Japanese carrier planes continued their assault the following day and that they were joined by land-based American planes from China.

**Huge Jap Losses**  
The Navy's first report on the action said that 124 Jap planes were shot out of the sky, 97 destroyed on the ground and that the assault resulted in "heavy damage to enemy shipping and shore defense works."

No warships were listed in the first report on shipping damage. Announced sunk were two large cargo vessels, two medium cargo vessels and 12 small cargo ships.

In the damaged category were two large cargo ships, seven medium cargo vessels and 10 small cargo craft.

"In addition to the foregoing, extensive damage was done to hangars, buildings, air dumps, warehouses, docks and industrial establishments," the communiqué said.

Points on the island which were reported hit were Eimasho, Okayama, Tamsui, Heito, Reigayao, and Taichu.

### PA NEWC Observes

Summer sure hangs on! The lawn in the public square was being mowed at noon today.

Friday, the 13th, doesn't mean a thing to the stork. This morning he had already delivered four babies to the Jameson Memorial hospital, three of whom were boys and one a girl.

Once again football night at the stadium has arrived. New Castle plays Farrell High tonight at Tackart field. Due to war-time restriction no telephone reports of progress of the game or score can be given by The News.

Pa Newc is asked why it wouldn't be a good idea to construct a couple of small temporary dams in the Neshamock creek in the downtown district to provide for skating ponds for this winter. Neshamock creek at one time was the skating center of the city, before the Rosena dam was eliminated.

### Huge Offensive Move In Battle On Japan Appears To Be Nearing

By MAJOR PAUL C. RABORG  
(Written Especially For International News Service)  
NEW YORK, Oct. 13.—The Japanese report that a thousand Allied planes attacked the island of Formosa for a period of eight hours, is extremely significant whether or not it is true.

The calm in land offensive action since our assault against the Japanese held Palau islands is extremely significant. Without doubt, it is the calm before great battle assault action.

It would seem to the observer on the outside that the Saipan islands and possibly Guam will be made formidable advance American bases. The same may become true of the Palau islands.

Actually, offensive action in the Pacific has been building since the first Quebec conference when Admiral Lord Louis Mountbatten was appointed to the high command of the East Asia command.

Truk Totally Useless  
Commencing with the strategy of General MacArthur in the Far East, by-passing of Japanese positions has become extremely popular and correctly so. There was a time when public opinion was positive that

### Jap Oil Plants In East Indies Again Blasted

By FRANK ROBERTSON  
(U. S. Staff Correspondent)  
GENERAL DOUGLAS MACARTHUR'S HQ., New Guinea, Oct. 13.—Japan's Balikpapan oil refineries smoldered today underneath the heaviest allied air blow yet directed in the area.

In other areas of the Dutch East Indies, enemy shipping and airfields sustained new damage through widespread aerial attacks.

General Douglas MacArthur revealed that 135 tons of bombs were unleashed on the Balikpapan refineries. Aerial photographs showed that the paraffin plant was heavily damaged and the cracking plant was rendered "totally and probably permanently inoperable."

Destruction of Balikpapan would curtail Japan's sea and air warfare, "immediately and drastically," according to declarations by Gen. MacArthur.

**36 Planes Destroyed**  
A total of 36 enemy planes was destroyed and 10 others probably were put out of action in a fierce sky battle that occurred during the Balikpapan bombing.

The raid was carried out by five groups of American heavy bombers under fighter escort furnished by the Fifth and 13th Air Forces. The attacks were regarded as among the most successful ever launched by Lt. Gen. George C. Kenney's airmen.

American losses included three bombers and a fighter in contrast to Japanese claims that 65 United States planes were shot down.

Other American planes sank a 1,000-ton Japanese vessel near Manado in the Celebes, bombed warehouses in the Banga Archipelago and executed raids in other Indies areas.

In the Moluccas, attack bombers and fighters attacked enemy aircraft runways and strafed Japanese barge traffic.

### Report Panic In Budapest

NEW YORK, Oct. 13.—(INS)—Panic has broken out in Budapest and the populace is leaving the Hungarian capital by "all available means," a dispatch to the Stockholm newspaper Morgontidningen said today.

The dispatch, reported to the OWI by U. S. Government monitors, said that the Hungarian frontier to Slovakia and Austria has closed "and strictly guarded."

A Budapest radio broadcast yesterday said that the Hungarian government would "under no circumstances" leave the capital.

**HAMBURG BOMBED**  
LONDON, Oct. 13.—(INS)—Bombers of the Royal Air Force last night blasted targets in the German port of Hamburg and other objectives in the western Reich, the Air Ministry announced today.

Only one British plane was missing from the operations.

### CARRYING ULTIMATUM TO AACHEN

Here's the dramatic scene outside Aachen, Germany, as a trio of Americans marched toward the Nazi lines carrying a flag of truce and the surrender ultimatum to the enemy commander. ### Select New Castle State Baptists For '45 Convention Will Meet Here

Pennsylvania State Sabbath School Association To Meet Here Next October  
Delegates From 321 Churches In Pennsylvania Coming On October 16-19

### ACTION TAKEN AT READING SESSION

(Special To The News)  
READING, Oct. 13.—At the 32nd convention of the Pennsylvania Sabbath School Association held here the convention voted unanimously to hold the 83rd convention of the association in New Castle in October 1945.

This action was taken in acceptance of the invitation extended by religious and civic groups of New Castle, county and city officials, Cathedral and civic clubs for the convention to meet in New Castle next year.

**Lawrence Gets Award**  
With 28 delegates from the Lawrence county district in attendance at the convention, Lawrence county surpassed its quota of delegates and together with six other counties awarded a banner for 100 per cent rating. All counties with a rating of 90 per cent or more received banners.

Splendid attendance and interest has been shown during the convention which opened here October 16 and comes to a close today.

**County Schools Represented**  
Lawrence county Sunday schools represented by delegates are as follows: First Baptist church of New Castle, six delegates; First Presbyterian church of New Castle, three delegates; Third U. P. church of New Castle, two delegates; High-land U. P. church of New Castle, one delegate; First U. P. church of Ellwood City, two delegates; Bell Memorial Presbyterian church of Ellwood City, two delegates; Princeton Presbyterian church, two delegates; Rich Hill Presbyterian church, two delegates; Pulaski Methodist church, two delegates; Pulaski Presbyterian church, one delegate; Neshannock Presbyterian church of New Wilmington, one delegate; Kings Chapel Methodist church, one delegate; Harbor U. P. church, one delegate; Edenburg Christian church, one delegate; Plaingrove church, one delegate.

### Claim Hungary Seeks Armistice

LONDON, Oct. 13.—(INS)—Hungary has asked the Allies for an armistice, the London radio reported today.

The Hungarian army is in confusion, according to BBC, and neither army nor the people "seem willing to continue their fight at Germany's side."

### Canadians Advance Toward Vital Canal

LONDON, Oct. 13.—(INS)—Canadian forces smashing against German defenses in the Netherlands today captured the town of Biezan and established positions a thousand yards from the vital Leopold canal.

The Canadian advance put the allied force within striking distance of Ede.

**REPORT SOVIET LANDING**  
London, Oct. 13.—(INS)—The German DNB agency reported today that Soviet troops who landed in the Petsamo area of northern Finland yesterday occupied the port of Linnhami.

### Tregaskis Goes Into Aachen With Troops; Tells Of Conditions

By RICHARD TREGASKIS  
(U. S. Staff Correspondent)  
INSIDE AACHEN, Oct. 13.—The first American troops pushed across the railroad tracks into the city of Aachen at 9:29 a. m. today. This correspondent followed at noon time.

I am now two blocks inside the shell and bomb-blackened city and the foremost military elements are a few hundred yards ahead.

Suiter bullet are zinging through the streets occasionally. Our men are moving cautiously ahead in a duel of small arms firing.

**Thrill To Be Here**  
It now is 1 p. m. It's a thrill to be inside the much fought over city, the first larger German community to feel the tread of American feet.

From here, in a former school building, every house appears smashed. There is no building without windows broken and many are crushed in from the roof down. There is no German artillery fire and the Doughboys say they haven't had any yet, but there is plenty of small arms fire.

Occasionally one hears the rapid sound of a German machine-gun so fast it sounds like tearing paper. Then there's a fusillade of our own automatic weapons and an American tank in a little square near here lets go with a blast of three or four rounds in the direction of the house from which the enemy firing comes.

**Not So Tough**  
According to Capt. Ozell Smoot of Oklahoma City, Okla., leader of the first group of troops to cross the railroad tracks into Aachen at 9:29 this morning, however, "it is not as rough as we figured."

"There've been only a few casualties," he continued. "The trouble is, though, we're having to go through every damned building where snipers are hiding out."

As the captain talked, I watched a badly wounded GI being carried out. We had to step into a doorway to avoid snipers' shots which were ricocheting down the street and being overwhelmed by the cascading sound of several machine-guns, including one on a tank near the center of the square.

In the middle of the street a group of about 20 Germans had been standing with hands high in the air. Now they are being shepherd into cover to avoid their being hit by their own guns.

### Japs Report Second Raid On Formosa

(International News Service)  
A second successive daylight bombing of the Japanese island fortress of Formosa by American carrier-based planes was reported today by the Nipponese high command.

The new attack was launched this morning (Japanese time), according to the broadcast text of an imperial communication, and continued until noon (11 p. m. Thursday EWT).

The communiqué was transmitted by the Domei agency in a wireless dispatch recorded by the FCC and reported to the OWI.

Announcement of the second successive raid indicated that an American carrier task force was continuing to hover off the shores of Formosa, but the Jap accounts of the assaults remained unsubstantiated by United States Pacific headquarters.

The island, 100 miles off the coast of southeast China and 550 miles south of the Jap home islands, was under aerial assault by a force of 1,000 planes for some eight hours yesterday, Tokyo said.

### Traffic Snarl As Nazis Flee Athens

NEW YORK, Oct. 13.—(INS)—The exodus of Germans from Athens in the face of allied advances through Greece was reported today to have resulted in a terrific traffic jam.

The report on clogged roads leading from the Greek capital was given by the British radio in a broadcast heard by NBC.

German trucks, ambulances and staff cars were said to be involved in the tangle north of Athens.

### Report Athens Is Free Of Germans

LONDON, Oct. 13.—(INS)—Athens is free of Germans, who have declared the Greek capital an open city, a Reuters dispatch from Cairo reported today.

### Reds Are Poised For Plunge Into Pre-War Prussia

Russian Forces Also Strike Sudden Blow Against Latvian Capital

**NAZIS FORCED BACK ON FRONT**  
BULLETIN  
NEW YORK, Oct. 13.—(INS)—Russian forces have smashed across the East Prussian boundaries, BBC reported today, quoting the Swedish newspaper Dagens Nyheter.

"Moscow has not confirmed this report," the London radio asserted, "but it is known that the Russians have massed troops on a wide area in the frontier zone."

The broadcast was heard by OWI.

**BY NATALIA RENE**  
(U. S. Staff Correspondent)  
MOSCOW, Oct. 13.—A large-scale plunge across the pre-war frontier into East Prussia by formidable Soviet armies appeared imminent today after Red army assaults columns smashed the Nazis back on a 110-mile front in western Lithuania and moved to within 12 miles of the East Prussian rail center of Tilsit.

Paris radio broadcast said that the Russians already were reported to have crossed the East Prussian border at three points.

**Strike Sudden Blow**  
While the Soviets north of the border forced the Germans to withdraw along the East Prussian frontier other Russian troops struck a

### Tremendous Ship And Plane Losses Suffered By Japs

PEARL HARBOR, Oct. 13.—(INS)—Tremendous ship and plane losses have been suffered by the Japanese at the hands of Admiral William F. Halsey's third fleet and its carrier-based planes commanded by Vice Admiral Marc A. Mitscher since the fleet swung into action off the Philippines August 30. The box score:

Planes destroyed—1,324, of which 325 were shot out of the skies.  
Planes probably destroyed or damaged—30.  
Ships sunk—172.  
Ships probably sunk or damaged—225.  
Smaller vessels sunk or damaged—more than 200.

### Air Battles Still Rage At Formosa Is Jap Report

NEW YORK, Oct. 13.—(INS)—At 11 a. m. EWT today, NBC monitors recorded a BBC relay of Tokyo reports asserting that the air battles over Formosa now have raged for more than 30 hours without interruption.

# Drop 1,200 Tons Of Allied Bombs Upon Bologna

ROME, Oct. 13.—(INS)—Military targets in the north Italian city of Bologna were battered with 1,200 tons of bombs in yesterday's record-breaking assault. Mediterranean Air Force headquarters revealed today.

In sweeps over Budapest and Vienna areas the American Fifteenth Air Force Mustangs strafed four key airdromes used by the Germans and shot down 18 Nazi aircraft in sky battle. A large number of other enemy planes was destroyed on the ground.

Communications lines between Vienna and Budapest were blocked through a series of attacks that resulted in destruction or damage of 36 locomotives, 83 rail cars, many barges and motor transports.

A 30-car German ammunition train was blown up in the Modena area beyond Bologna by tactical air force bombers which also hit Cesena, Ferrara and Ravenna, smashing enemy bivouacs and key installations.

Heavy bombers, in a night raid, attacked the Brennero marshalling yards on the Brenner route, while the coastal air force destroyed a number of small boats engaged in evacuating the Nazis from North Adriatic and Istrian seaports.

Land drives against the Germans in Greece and Albania received further support in a number of "highly successful missions of the Balkan air force."

# HUGE OFFENSIVE MOVE IN BATTLE ON JAPAN APPEARS TO BE NEAR

(Continued from Page One)

American forces would attack and capture Truk. Today, Truk is a rear and by-passed position that is totally useless to the Japanese. At our convenience, it will fall to us and without serious loss of life.

Lord Louis Mountbatten's objective, an offensive into China through Burma or the Malayan peninsula, is well nigh impossible within any short space of time. The armies of Chiang Kai-Shek must have relief and war supplies immediately.

## Chinese Need Help

The Burma road, or its newest addition—the route by way of Ledo, never has and never will give to Chiang Kai-Shek any considerable or great flow of arms, ammunition, airplanes, or war materiel. It may keep the Chinese armies alive, but it will never permit them to enter into an all-out offensive action against the Japanese enemies. But the Chinese are the one element in the Far East, which, regardless of reverses, has continued to fight the war lords of Japan. They must have help and real help. When they received the all-necessary assistance, they can make our job of exterminating the Japanese war cult almost a hundred per cent easier.

## May Land In China

No one on the outside observing from a distance can have a correct idea as to the Allied plans for offensive action in the Far East. We do know the United States has amassed tremendous naval and air strength in that area and it would appear that we are in no way short as to land forces.

It would appear, that Allied plans may be to seize the Philippines. We are approaching that archipelago from two directions. Either or both assaults will be successful. After the Philippines have been restored to our possession, then the armed forces of Great Britain and the United States may hurdle the south China Sea to a landing in China in rear of or to the east of the new Japanese defense line they are now attempting to create in Chiang Kai-Shek's area. When and if that happens, the war lords of the empire of the Rising Sun will be defeated.

# TREGASKIS GOES INTO AACHEN WITH TROOPS

(Continued from Page One)

tured this morning, the total being about 45. This lot seemed well fed and husky, unlike the rif-raff troops seen on other sectors of the front.

The captain said, "they're the first bunch of top-flight troops. Some are real cocky—they think they're going to win the war."

Evidently good troops are left in the city.

Despite the fitness of the enemy troops and the presence of snipers, however, this first advance into Aachen can't be said to be closely contested in comparison with other tough battles.

Captain Smoot said, "we are going as fast as expected and are still advancing."

## Few Nazis Left

In addition, a handful of refugees crouching in the basement of a building report there are only a few German troops and very few cannons, so far as they can see, left in Aachen.

Captain Smoot received word that several anti-tank guns were captured unmaneuvered in one basement.

Lighting fighters bomb and strafe any spot where enemy activity is seen.

Smashed houses still are smoking and burning and the town is crisscrossed with a perfect cover fire. "Just before 9:30 we jumped off, following the shells as close as we could. We had a few casualties from Jerry machine-guns."

A gaunt man with a Hitler mustache said he had been given a card ordering him to report at a certain spot to leave with a certain evaluation group, but found nobody there. He elected then to remain in the cellar, he said.

He declared that about 22,000 persons are remaining in the cellars, awaiting the arrival of the Americans. In his judgment, he added, the Germans in the area are finished.

## Vast Devastation

The first impression of the town now is one of vast devastation. Down the long, straight streets are endless rows of blown-out window casements, smashed sashes and broken roofs. From outside the city, even in observation posts 200 or 300 feet from the railroad tracks, you didn't have an impression of such damage.

The next impression is of tall men in German gray standing in the middle of the street with a shorter American guard in brown. They are prisoners.

The din of firing is very heavy, for to the left and to the rear, rows of American tank destroyers have been blasting away. Farther back artillery is banging. On this side of the tracks American 75's are pounding steadily at still closer range.

At the moment there is no audible German firing, although I had seen one black puff of ack-ack a few minutes ago when lightnings dove in for their bombing runs.

## Reaches Doorway

Walking over the broken glass littering the streets and running along gaps of street crossings gave the enemy snipers a field of fire. I reached a doorway where I got a good look at the prisoners. In the rear row of about 20 Heavies with their hands up I saw two women who also apparently considered themselves prisoners.

They were taken to the basement of a nearby house where a group of about a dozen men and women refugees was huddled, content to be out of the shellfire. One woman told how they had been ordered to go to a station about a month ago to be evacuated.

"But they told us no more trains were running," she said. "We went up to the north station and were told that these trains also were out. We decided we didn't want to go anyway because American cannon and planes were destroying all roads."

## BOY IS KILLED

LOVERDALE, Pa., Oct. 13.—(INS)—The coroner's office today reported an eight-year-old Cloverdale boy was killed almost instantly yesterday when he was struck by a truck near his home.

The victim, David McCracken, Jr., was pronounced dead by Dr. J. E. Kent, of Cloverdale, a short time after being struck by the truck which was operated by Walter Beck, authorities said.

# REDS ARE POISED FOR PLUNGE INTO PRE WAR PRUSSIA

(Continued from Page One)

sudden new blow against the Latvian capital of Riga. They routed at least two German infantry regiments and marched steadily toward the city.

(The Russians were reported in an Exchange Telegraph Company dispatch from Moscow to be shelling port installations at Riga while Soviet aircraft were bombing German transports trying to escape.)

In the thrust against Riga, Red troops forced the Germans "to retreat in such haste that they did not even have time to blow up crossings over the River Rautje that already had been mined."

The Red army rapidly crossed the left bank of the river, forcing further ahead and gained positions that included the strategic railway station at Langedien.

## Drive On Latvian Port

Russian forces also advanced on the important Latvian port of Liepau and continued to decimate the reported 150,000 Nazis cut off there.

In the area of Skid, north of Memel, where the Red troops had reached the Baltic, the Russians were expanding their positions.

(The Moscow communiqué did not announce further gains in the immediate area of Memel itself, but reports from Algiers indicated Russian forces already were fighting within the streets of the East Prussian port and the Germans admitted that a terrific tank battle is underway just outside the city.)

In northern Transylvania, the Russians, maintained their offensive unimpeded of heavy rains that hampered passage through the rugged mountain roads. Nazis, famed Hungarian forces, staged a particularly stubborn defense at the town of Borgo which eventually was captured after the Red forces outflanked the place.

Soviet troops captured the town of Oradea, an important communications center in western Romania, and continued their forward drive. Three German tank divisions were defeated in the battle for Oradea.

itions from the enemy. Points seized included the dominating Mont Delle Formiche, which means ant hill.

The town of Livernano, gateway to Bologna, was outflanked but the Nazis continued to fight grimly on the southern approaches to the town.

## "Hold To The Death"

Evidently obeying a "hold to the death" order from Field Marshall Albert Kesselring, the Germans strove desperately to retain the high ground which screening the Po valley which is slipping from their hands.

The Germans continued to launch counter-attacks with utter disregard for losses.

A typical example of the heavy losses sustained by the enemy was seen in the last series of attempts to recapture strategic Mount Battaglia. In that drive 66 Germans were taken prisoner while all the rest of the attacking force was slain.

An improvement in the weather permitted resumption of large-scale operations which yielded ground gains across the entire front except in the immediate Adriatic coastal sector where a succession of rivers at short intervals gives the Germans excellent defensive positions which they have exploited to the utmost.

Eighth army troops at the eastern end of the front reached the foothills south of the main Rimini-Bologna road, occupied the village of Montiano and pushed toward Mount Dell'Erta where fierce fighting is going on against reinforced German units.

# Sgt. Nick Alfreda Missing In Action

Local Soldier Reported Missing In Fighting In Germany By War Department

Mr. and Mrs. Joseph Alfreda, of 1321 Pennsylvania avenue have received word from the war department, informing them that their son, Sgt. Nick Alfreda, has been reported missing in action in Germany since September 15, where he was serving with a crack infantry unit.

Sgt. Alfreda entered the service on December 3, 1941, and has been overseas since July, 1942. He was wounded in the fighting in Sicily and had been awarded the Purple Heart for this. No word had been received from him for the past three months.

Sgt. Alfreda is a graduate of Shennago Township High School where he was a gridiron star. He was employed at the National Radiator plant before entering the service.

## "Hold To The Death"

Evidently obeying a "hold to the death" order from Field Marshall Albert Kesselring, the Germans strove desperately to retain the high ground which screening the Po valley which is slipping from their hands.

The Germans continued to launch counter-attacks with utter disregard for losses.

A typical example of the heavy losses sustained by the enemy was seen in the last series of attempts to recapture strategic Mount Battaglia. In that drive 66 Germans were taken prisoner while all the rest of the attacking force was slain.

An improvement in the weather permitted resumption of large-scale operations which yielded ground gains across the entire front except in the immediate Adriatic coastal sector where a succession of rivers at short intervals gives the Germans excellent defensive positions which they have exploited to the utmost.

Eighth army troops at the eastern end of the front reached the foothills south of the main Rimini-Bologna road, occupied the village of Montiano and pushed toward Mount Dell'Erta where fierce fighting is going on against reinforced German units.

# President Studies Action Against Jas. C. Petrillo

WASHINGTON, Oct. 13.—(INS)

—President Roosevelt disclosed today that he is searching the statute books for a course of action against James C. Petrillo, AFL Musicians Union president, who has defied governmental orders to lift the record ban on RCA-Victor and Columbia.

Mr. Roosevelt told his news conference that he is looking into about 40 laws on the subject, adding that he definitely would like to do something about Petrillo's refusal to obey a War Labor Board directive to rescind the two-year-old ban. The President promised a decision within a few days, but stressed the fact that it is largely a question of law as to what action he can take.

AFL musicians have been forbidden to make records for RCA-Victor and Columbia because of the latter's refusal to pay royalties to a union unemployment fund.

Although the President frequently has seized mines and manufacturing plants to enforce compliance with WLB orders, he has never ordered seizure of union's books, impounded its funds, or stopped the check-off of union dues. At the time of John L. Lewis' defiance of the WLB, Mr. Roosevelt professed his inability to do anything about it.

Beau Brummel lived the last 10 years of his life in Caen, and died there in an insane asylum.

## GERMAN FORCES STAGGER UNDER AIRCRAFT BLOWS

ROME, Oct. 13.—(INS)—German forces in southern Europe today staggered under heavy blows from Allied naval aircraft and sea-borne guns, according to a communique, detailing carrier plane attacks October 11.

Sweeping Salonika and Volo gulf, as well as Euboea channel, the Navy fleet smashed enemy concentrations and small craft while in other Aegean sea areas they destroyed five landing craft, three "E" boats, a large trawler, a flak escort ship, a Siebel ferry and one Calique.

The American destroyer Gleaves spearheaded new bombardment of enemy mobile batteries at Ventimiglia, and, despite enemy interference, minesweepers cleared underwater mines from the Riviera coast to support the Seventh Army's right flank operations toward northern Italy.

The Eighth Army's renewed thrust toward the Po Valley received naval support from the British destroyers Loyal and Look-out. The ships fired 1200 rounds of gunfire against German batteries and defense works in the vicinity of Cesenatico on the Adriatic coast.

## New Castle Colonel Returns To Country

Lieut. Col. Michael Popowski, Jr., formerly a resident of New Castle, has returned from overseas after more than two years in North Africa and Italy with the First Armored Division, and has been assigned to ground requirements section at the headquarters of the Army ground forces in Washington, D. C.

Lt. Col. Popowski holds the Silver Star, Bronze Star, Purple Heart with Oak Leaf Cluster, French Croix de Guerre with a Silver Star, and a citation from the First Armored Division.

Born in New Castle, he attended Norwich university, in Vermont, and M.I.T. and has been in the Army since 1934.

Gasoline vapors have been found to have anesthetic effects similar to those of alcoholic vapors.

## Increased Sugar Supplies Reported Now In Prospect

Stepped-Up Production In Sugar Beet Factories And Cane Fields Reported

By EARLE MARCKRES  
(U. S. Staff Correspondent)

WASHINGTON, Oct. 13. — Increased civilian sugar supplies were in prospect today as the War Food Administration disclosed that stepped-up production in the Midwest and western sugar beet factories and cane fields, plus foreign imports, would enable distributors to rebuild their depleted stocks.

Despite this optimistic trend, WFA underscored the sugar situation, which was highlighted by a recent stalemate conference between Cuban and United States officials over a new contract for the five-million ton 1945 import crop, with a warning that current consumer demands are higher than domestic production and imports.

WFA indicated the nation's augmented consumption rate with the disclosure that during the first eight months of this year primary distributors in the United States marketed 4,930,000 tons of sugar, an increase of 483,000 tons over the same 1943 period.

**Increase To Civilians**

WFA said that "nearly all" of the increase went to civilians. It was necessitated, WFA added, by an increase in preserving and canning fruit and vegetables, larger-than-normal production of condensed milk, and supplemental allotments for other civilian purposes.

Increased consumer demands for sugar have caused considerable apprehension among some agriculture department officials about future supplies, especially after the breakdown in United States-Cuban negotiations.

Cuban representatives had sought a half cent increase over the 2.75 cents per pound paid by the Commodity Credit Corporation.

Some agriculture sources, however, pointed out that the price question may become academic if barriers, European and other world markets suddenly bid for the Cuban sugar crop to restock their own larders.

With undetermined supplies of sugar scheduled to be released to consumers when United States alcohol plants begin production with corn, WFA officials, however, have declined to estimate its effect upon the overall situation.

**LAND OF PLENTY**

SILATZ, Ore. — (INS) — Clifford Brassfield will have to hire loggers to cut down his corn if it continues to grow. Located in one of Oregon's most fertile agricultural sections, corn on the Brassfield farm is now over 10 feet high with ears dangling out of ordinary reach. His lima beans may also have to be "felled" since they tower 12 feet in the air.

There are at least 68 varieties of kidskins used commercially. More people throughout the world depend upon the goat than on the cow for their existence, it is stated.

Babies' mattresses are usually covered with ticking that has been treated for germ-resistance and water-repellency.

**MINERS STRIKE**

PITTSBURGH, Oct. 13. — (INS) — Strike involving 775 miners today kept two mines of the Pittsburgh Coal company idle.

Protesting the lay-off of one worker charged with ignoring instructions caused miners to be idle the second day at Montour Mine No. 4. Hill station. A strike at the Midland mine, near Houston, entered its third day in a dispute over the hiring of two men.

## Ellwood Sergeant Receives Citations

S-Sgt. Stanley L. Wilson in Aerial Unit Cited Twice by President for Services

(Special To The News)  
15TH AAF IN ITALY—Staff Sergeant Stanley L. Wilson, son of Mr. and Mrs. George B. Wilson, 508 Wayne avenue, Ellwood City, Pa., is a member of a veteran 15th AAF P-51 Mustang fighter group which has been awarded two Presidential Distinguished Unit Citations for outstanding achievements in aerial combat. These citations are the highest military honors which can be awarded to a unit.

The first citation was awarded for a mission over the Island of Sardinia on July 30, 1943, during which 20 planes of the group destroyed 21 enemy planes in aerial combat. The second citation was awarded in recognition of the feat of destroying 37 enemy planes north of the Gulf of Venice on January 30 of this year, the greatest single fighter group aerial victory of the Italian campaign.

Veterans of every major aerial operation of the Mediterranean theatre, the group has the outstanding record of having destroyed 452 enemy planes in aerial combat on 300 missions. They were the first fighter group to fly the historic Italy-to-Russia shuttle mission.

Entering the AAF in April 1942, Sgt. Wilson left the states for service in February 1943 and has served in North Africa and in Italy for 20 months.

## EDENBURG

### DINNER AND SERENADE

In honor of Mr. and Mrs. Clark L. Brown, a bride and groom of recent date, the bride's parents, Mr. and Mrs. Robert Hamner, entertained at a dinner in their home Saturday evening at six o'clock. The young couple was given a rousing serenade. They were also the recipients of a collection of lovely and useful gifts.

### TUREEN DINNER

Women's Society of Christian Service of the Methodist church enjoyed a tureen dinner in the church Wednesday evening. Mrs. Paul Roberts was devotional leader. The program was in charge of Mrs. Ray Biddle, assisted by Mrs. Charles Hoover and Mrs. Charles Loudon. Mrs. Sam Book recited a poem and Mrs. Roy Raub read a poem. The November meeting will be at the home of Mrs. Roy Raub.

### EDENBURG NOTES

Mrs. John Robinson and daughter, Joanne, and son, Billie, are spending a few days with Mr. and Mrs. Roy Gibson, of the Edenburg-Hillsville road.

Mr. Helen McConnell has returned to Washington, D. C., after

a visit at the home of Mr. and Mrs. George Nicholls, Jr.

Mr. and Mrs. Lewis Myers, of Kittanning, were Monday callers at the home of Mr. and Mrs. William Toy.

Mr. and Mrs. George Kuhn, of Tent Hall, were Saturday evening callers at the home of I. S. Leeper, who is convalescing in his home on the Edenburg-Mt. Jackson road after receiving treatment in the Jameson hospital for several weeks.

## THE WORLD AND THE MUD PUDDLES

(Continued From Page Four)

spite of overwhelming protest of the island's citizens and demands of Congress for his removal, is retained by the New Deal as governor of Puerto Rico. Reliable citizens of Puerto Rico have insisted for a long time that the deplorable economic conditions in that island, as well as its grave social unrest, are largely to the Tugwell policies. But he remains an administration favorite.

This is the Rexford G. Tugwell, the arch "planner" of New America, who wrote in 1933:

"Fundamental changes of attitude, new discipline, revised legal structures, unaccustomed limitations on activity, all are necessary if we are to plan. . . . It amounts, practically, to the abolition of 'business'. . . . We have a century or more of development to undo. . . . The first series of changes will have to do with statutes, with constitutions and with government. . . . If we begin to plan, we shall begin changing once for all, and it will require the laying of rough, unpolished hands on many a sacred precedent, doubtless calling for an enlarged and nationalized police power for enforcement. . . . There is no private business, if by that we mean one of no consequence to anyone but his proprietors, and so none exempt from compulsion to serve a planned public interest. . . . It has already been suggested that business will logically be required to disappear. This is not an overstatement for the sake of emphasis; it is literally meant."

Nothing more clearly portrays totalitarianism, not even the philosophies of Marx or Hitler or Stalin, than this effusion of Rexford G. Tugwell.

Mr. Tugwell has never recanted his statements. And Mr. Roosevelt has never repudiated Mr. Tugwell.

## Bulgaria Accepts Armistice Terms

NEW YORK, Oct. 13.—(INS)—Armistice terms formulated by the United States, Britain and Russia have been "wholly accepted" by the Bulgarian government, the Tass (Soviet) agency reported today.

The Tass dispatch, reported by the PCC, said the terms were accepted Wednesday, the day on which the armistice was presented to the Bulgarians.

## DISCLOSE HEAVY LOSSES OF JAPS IN FORMOSA RAID

(Continued from Page One)

(west longitude date) shot 124 enemy aircraft out of the air and did heavy damage to enemy shipping and shore defense works.

Preliminary pilot reports and photographs show that 97 enemy aircraft were destroyed on the ground. Initial reports indicate the following damage to enemy shipping:

### Ships Sunk:

Large cargo ships two  
Medium cargo ships two  
Small cargo ships, 12.

### Ships Damaged:

Large cargo ships two  
Medium cargo ships, seven  
Small cargo ships, ten.

In addition to the foregoing, extensive damage was done to hangars, buildings, air dumps, warehouses, docks and industrial establishments at Elnansho, Okayama, Tamsui, Heito, Reigayao and Tachiu. No losses were aircraft. There was no damage to our surface ships.

### Strike At Luzon

Earlier, a Pearl Harbor communiqué disclosed that a large force of American carrier-based planes struck airfields and installations on Luzon Islands in the Philippines Oct. 10 as a follow up to Monday's raid at the Ryukyu Islands which stretch to within 200 miles of the Jap homeland chain.

Planes from the American carriers have now spread their operations over a 1,000-mile area in a line from the northernmost of the Ryukyus to the island of Luzon on which Manila is situated.

No details were given on the latest Luzon raid but in the Ryukyus American planes blasted 58 enemy ships and destroyed 89 Jap aircraft.

The Tokyo radio, broadcasting a Japanese Imperial communiqué, claimed that Jap planes "cornered" an American task force off Formosa, sank a United States carrier and damaged another. The Japs also claimed that they sank an American vessel of "type unknown" and severely damaged another unidentified American ship.

Pacific fleet headquarters also reported that American ground forces have occupied a twelfth island in the southern Palau. On Peleliu United States Marines continued their progress against the last remaining pocket of Jap resistance on Bloody Nose Ridge while on nearby Anguar remnants of the Jap garrison have been pushed into an area only 150 yards square.

## Soldier Son Back From Overseas

Word has been received by Mr. and Mrs. A. V. Grieve, of 21 Smithfield street, that their son, Cpl. George Grieve is now at Moore General Hospital, N. C., and expects to be home next week for 21 days furlough. He recently returned from England, where he had been in a hospital since June, being treated for malaria.

Cpl. Grieve has been overseas two years, and has been in actions in Sicily, Italy, and France. He has been in the service over three years. A brother, Sgt. John Grieve, is stationed on Galapagos Island, off South America. Staff Sergeant Albert Grieve is in the Admiralty Islands, in the Pacific. Both are O. K. A sister, Cpl. Agnes Schaefer, of the WAC's is home on furlough, and attended the funeral of her grandmother, Mrs. Margaret Spurr, who died at Irwin, a week ago.

## DEFECTIVE CHIMNEY CAUSE OF BLAZE

Four fire companies were called into action by an alarm from Box 15 at 11:45 p. m. Thursday, when a defective chimney set fire to the home occupied by Bruce Roberts, Jr., at 113 W. South street. Damage of around \$50 resulted. Fire Chief James E. Thomas reports.

TRIPLE-PURPOSE PASTURES  
REQUIRE FALL ATTENTION

In order to maintain production at a high level, particularly following a severe drought, it is necessary to rest triple-purpose pastures to allow them to store energy and food in the roots. Good top growth is needed to produce the food and to act as a ground cover for winter protection.

Triple-purpose pastures furnish high quality nutritious feed because of the Ladino clover and alfalfa, which are high in protein. Heavy yields and summer grazing are produced by the orchard grass and fescue in the mixture. But these pastures should be given a rest in the fall so that they can provide winter protection to prevent heaving and freezing.

For those wishing to hold triple-purpose pastures as long as possible and to produce the maximum yields of forage, the following rules are suggested:

1. Stop grazing when frosts are imminent.
2. Fertilize as soon as grazing has stopped. Apply a minimum of 300 pounds of 0-20-0 to the acre, or where no manure will be used, 400 or more pounds of 0-14-7 or 0-12-12 to the acre.
3. Scatter droppings if many are evident.
4. When frosts have stopped growth, apply 6 tons of strawy manure to the acre for additional winter protection.

PUMPKINS, SQUASH AND SWEET  
POTATOES NEED SAME  
STORAGE

Storage conditions for pumpkins, squash, and sweet potatoes are the same. Gardeners are urged to harvest these three crops now and store them properly for winter use.

All these garden crops require about the same temperature, humidity, and ventilation and can be stored together. But only those specimens which are sound and well-matured should be taken into storage. Partially developed or damaged specimens should be utilized immediately for food, as they are of little value for storage.

Pumpkins, squash, and sweet potatoes should be kept just below living room temperatures, or between 55 and 70 degrees, for best results. The storage room should be dry, and a moist cellar is no place for them. A garage or basement would be far better. These vegetables require ample ventilation, and should be spread out in single layers for good storage.

A leaflet containing suggestions on home vegetable storage may be secured without charge from the Agricultural Extension Association Office, No. 206 Post Office Building, New Castle.

LARD EXCELLENT FAT FOR ALL  
HOME BAKING

During the last 15 years the home use of lard has decreased sharply though it is a highly digestible fat. Among the reasons for this reduction are less home baking and the use of other shortenings.

It is suggested that lard be used where it is available and when it is more economical than other fat. Lard is an easy fat to work with and is pliable at a wide range of temperature. Some folks prefer its flavor for bread, doughnuts, and for

frying chicken. Lard may be used in cakes, frostings, and cookies. The cakes stay moist and many persons like the soft velvety texture. It is well to know how to use lard for deep fat frying so as to get its best flavor.

When using lard in a recipe that calls for other shortening, observe the following points:

1. In substituting lard for other fat, use 2 tablespoons less lard per cup. For example, if recipe calls for 1 cup shortening, use 1 cup lard less 2 tablespoons.
2. Use twice the amount of salt stated in recipe when using lard.
3. In cake making, the method of mixing differs from standard procedure—add 1 cup of sugar to egg before beating; add 2 tablespoons of liquid to lard and sugar mixture before adding dry ingredients.

If the flavor of lard is objectionable in cakes and cookies, select recipes that contain brown sugar, molasses, cocoa, or a combination of these.

The proper storage of lard is very important. Use small containers that are clean, dry, and airtight. Keep covered and cool, preferably

at 50 degrees Fahrenheit. Refrigeration is suggested where possible.

For more information on the use of lard, consult Miss Phillippi, Agricultural Extension Office, No. 206 Post Office Bldg., New Castle.

District Head  
Speaker Tonight

Rev. E. C. Anderson of Punxsutawney, former local pastor of the Gospel Tabernacle, 210 Pearson street, but now superintendent of Western Pennsylvania district of the Christian and Missionary Alliance will address the annual missionary convention tonight at 7:30 p.m. in the Pearson street church.

Mrs. H. G. Sterling of India will bring her closing address tonight and then move on to Corry, Pa., where she will continue her itinerary.

The convention which has been in progress for the past week will come to a close Sunday with the taking of the annual missionary pledge.

(U.S. Staff Correspondent)

ALBANY, Oct. 13.—Gov. Thomas E. Dewey today mapped the final speeches of his campaign, at least one of which is expected to be a direct appeal for the support of millions of small businessmen and their families.

In his appeal to small business, which may be in his speech Monday night at St. Louis, Gov. Dewey is expected to emphasize that a vast number of workers are affected by what happens to the little factories and stores and that big industry alone cannot handle the post-war employment problem.

The governor already has stated his belief that the "little fellow" has been hamstrung by present federal tax policies and by confusing directives from Washington. He has promised to devote an entire speech to that subject.

**Large Registration**  
Gov. Dewey's advisors have given considerable thought to the large registration in New York, where the GOP nominee and Mrs. Dewey registered yesterday, but they dispute the claim of Democratic leaders that the big city vote increases President Roosevelt's chance of carrying the state.

While willing to concede that some voters have been brought to the polls through the activities of the political action committee, they

insist that thousands of independent voters are turning out to back the Dewey-Bricker ticket.

The Republican nominee plans to devote today and tomorrow to work on his St. Louis speech and to the foreign relations talk he will give next Wednesday before the New York Herald-Tribune forum. President Roosevelt will address the same forum on Oct. 21.

Both candidates are expected to confine themselves to an outline of their respective ideas about how a durable world peace can be achieved.

Gov. Dewey is expected to deliver his main farm speech when he appears in Minneapolis October 24. His "little business" talk, if not given at St. Louis, may be saved for either Chicago or Boston.

**Four-Day Work Week Suggested**

PITTSBURGH, Oct. 13.—(INS)—A four-day work week that will be a boon to better living and greater production in the near future today was predicted by Carleton Smith, economist and liaison officer of the Rubber Development Corporation.

Speaking before the Allegheny county institute, a part of the 16th Western Pennsylvania Education Conference, meeting in Pittsburgh, Smith drew a picture of what civilization can expect from the present war.

"It will not only be possible," he declared, "but almost necessary to reduce the work-week to four six-hour days in the not distant future, but production will be greater and living will be better."

## Equipment Is Needed In China To Battle Japs

By EARLE MARCKES  
(U. S. Staff Correspondent)

WASHINGTON, Oct. 13.—Former War Production Board Chairman Donald L. Nelson's report to President Roosevelt on the Chinese economic situation was understood to include urgent recommendations for tanks, anti-tank guns and heavy artillery to stem the Japanese military drives in southeastern China.

Nelson's proposals were underscored by a Chungking dispatch in which P. H. Chang, Chinese cabinet official, said Chinese armies in strategically-important Hunan and Kwangsi provinces had received a total of 50 anti-tank guns, 60 artillery pieces and 30 million rounds of rifle and machine-gun ammunition under lend-lease up to the end of May, 1944.

Chang credited Japanese victories in Hunan province, northeast of Chungking, to a lack of tanks, anti-tank guns and artillery, and the loss of Henyang to the absence of heavy artillery.

Nelson returned to Washington Sept. 24 from a month's mission to China as Mr. Roosevelt's personal representative to study the immediate and long-range needs required for the republic's reconstruction.

His far-reaching report, which was approved by Generalissimo Chiang Kai-shek, is now being reviewed by the president and his advisers.

While his report canvassed the entire Chinese economic situation with a view to developing a measure of self-sufficiency, WPB sources said Nelson was concerned over the immediate possibility that allied supply routes into China might be severed before U. S. forces could

counteract the current Japanese offensive.

It was pointed out that an immediate increase in lend-lease war materiel shipments, presumably over "the hump" would serve to bolster China's defense of the vital southern area and stave off threats to the all-important Burma road.

It was also emphasized that Gen. Chiang Kai-shek's report on the 32nd anniversary of the October 10 revolution revealed that five million Chinese troops are available on all war fronts for military service. Thus far, it was pointed out, Chinese armies have been seriously hampered by lack of equipment and, in some instances, poor organization.

## Plan Hearings

### On Question Of Army Training

Senator Calls For Post-Election Hearings On Question Of Year's Military Training

By WILLIAM S. NEAL  
(U. S. Staff Correspondent)

WASHINGTON, Oct. 13.—(INS)—Sen. Lister Hill of Alabama, Democratic Senate whip, called today for post-election hearings on the question of a year's military training for American youth following the war.

Hill, a prominent member of the military affairs committee, said early consideration of the important question is desirable.

Bills are pending both in the Senate and House for peace-time military training so America might be better prepared for another war, and President Roosevelt has endorsed a year's training for youth without specifying that it shall be entirely military.

Sentiment has grown up in Congress, as well as outside the legislature, to devote a year's training for 17-year-old youths with an educational program.

"The military affairs committee ought to start hearings on this important matter after the election," said Hill. "Such hearings would be most timely."

"I am a great believer in the value of training, although I have no preconceived ideas as to what form such training should take. Training might well be linked up with education. I should want the educational feature stressed in any program that we might undertake."

Hill suggested that a program could be fitted to the desires of youths. The training period, he said, might be at the age of 17, 18 or 19.

"By all means any such program should be worked in with that of educational institutions," he said. "It might be that camps could be established at colleges and universities."

## Normandie Now Is Wanted By No One

Huge Liner Lies Waiting For Someone To Repair Her; Guarded By Skeleton Crew

WASHINGTON, Oct. 13.—The one-time French luxury liner Normandie has become a "white elephant" which no one seems to want.

Since the navy some time ago halted its work of converting the ocean giant into a transport, numerous official discussions have been held for disposition of the vessel. But the navy has found no takers.

The Maritime Commission definitely isn't interested, it is learned here. The commission thinks it would be too expensive and require too much time to prepare the ship for sea duty.

Whether the French will want the Normandie back has not been stated, but the French are generally expected to ask cash instead.

The United States requisitioned the Normandie at her dock in New York harbor in December, 1941. She was turned over to the navy and renamed the Lafayette but she burned and sank before she could be put to sea.

The navy then raised the vessel and again began preparing her as a transport, but suspended the work many months ago.

The navy still maintains a skeleton crew on the vessel, and has made no announcement as to further disposition, the last official word, last summer, being that the navy was "still studying the advisability of completing the job."

## Steel Salvage Committee Now Being Disbanded

With the need for steel scrap not as sharp as it has been, the industrial salvage committee is being dissolved, following the suggestion of H. M. Faust, director of the salvage division, War Production Board.

In a letter to Roger Jewett, chairman of the local industrial salvage committee, Mr. Faust pays a high compliment to the committee for the work done here.

In addition, a citation from Donald M. Nelson, recently resigned as chairman of the production board, has been issued to the local industrial salvage committee. The citation will be framed and hung in the office of the Greater New Castle Association.

In the future the only scrap that will be collected will be paper, tin cans, rags and fats. These are handled by salvage committees other than the industrial committee.

## Control Center Is Being Removed

Work has been started upon the reconditioning of the basement rooms of the Free Public Library which have been used for the past two years as a control center.

Some of the furniture has been taken to the Deshon Annex, other pieces returned to owners and the telephones have been removed.

## Probe Death Of Young Heiress At Hollywood

HOLLYWOOD, Oct. 13.—(INS)—The mystery death of Georgette Bauerdorf, 20-year-old heiress, was being probed by sheriff's investigators today. Her body, clad only in pajama tops, was found lying face down in a bathtub of bloody water.

Inspector William Penprase said the girl may have drowned after being knocked unconscious by slipping and falling into the tub while preparing her bath.

However, there were elements which caused officers to hold up a verdict of accidental death pending an autopsy and a study of the case.

Shreds of a washrag, which could have been stuffed there, were in the girl's mouth. It appeared that the young woman had been dead for eight or ten hours. Yet the water in the tub was still warm when her body was found. The door to the apartment was half open.

Miss Bauerdorf's diary and an airplane ticket found in her purse disclosed that she had been preparing secretly to fly to El Paso, Texas, for the graduation at Fort Bliss on October 16 of a man identified only as "Lou." An entry in the

diary read: "Lou is supposed to graduate at Bliss Field."

The girl's parents are in New York on vacation with another daughter, Mrs. John F. Dillon, and the oil man's secretary, Mrs. Rose L. Gilbert, said Miss Bauerdorf had told her nothing of the projected trip to Texas.

## Fear Crime Wave In Postwar Period

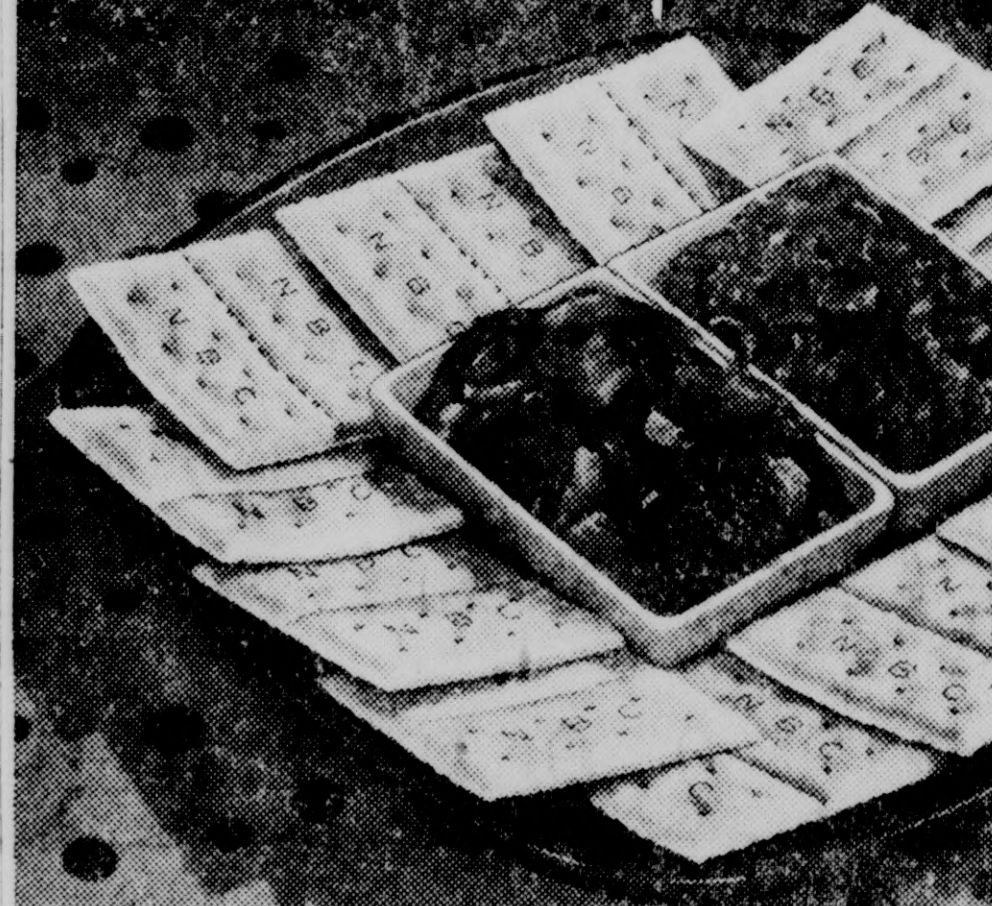

NEW YORK, Oct. 13.—(INS)—A somber warning that a postwar crime wave of unprecedented proportions will strike the country unless plentiful jobs await returning veterans was issued today by a panel of penologists, criminologists and psychologists.

Expressing the sentiment of many of his colleagues, Willard Waller, Columbia University professor of sociology, last night told the annual congress of correction:

"If we do not take better care of our veterans than after World War I, at least 60,000 and maybe many more will go to prison."

Dr. Lewis E. Lawes, former warden of Sing Sing, asserted that crime does not result directly from war but rather from the "economic and social disorganization which follow on the heels of war."

## Crosby Returns From Front Lines

Singer Finds Soldiers Overseas Worried About Homefront Complacency, He Says

MORALE HIGHEST  
CLOSE TO FRONT

By JANE COCHRAN  
(U. S. Staff Correspondent)

NEW YORK, Oct. 13.—American soldiers at the front in France are worried about "complacency" on the home front, singer Bing Crosby asserted Thursday.

Returning from a six-and-half weeks entertainment tour of the French front, during which he "captured" for two minutes—a German held town, Crosby said:

"There was one question that soldiers everywhere asked me—'Do people back home think the war is won?'"

"They're concerned by the complacent attitude they find in newspapers and they don't like post-war discussions—they want people to think about winning the war, not what they'll do after it."

Crosby, pipe in hand, had the highest words of praise for the men at the front.

**Cleaner At Front Line**  
"The closer you get to the front, the higher the morale," he said. "They're cleaner shaven, their clothes are cleaner, they're more precise and the salutes really snap. The sight of a familiar face is enough to send morale soaring at the front—it's in the rear lines and the evacuation hospital where entertainment is really needed."

Crosby and his USO-camp shows troop entertained as close as 1,000 yards to the front and once he lost almost his entire audience to the Germans.

"We were doing a show in a captured aircraft factory when the Germans counter-attacked," Crosby said. "I'd have to keep interrupting the show to make announcements—will such and such a platoon meet the lieutenant at the back door—will such and such a platoon meet lieutenant so and so at the front door."

**Met Them In Hospital**  
"I gradually talked myself out of an audience. The grim thing about it was that I met four or five hundred of them the next day back at an evacuation hospital—they demanded I continue the show at the point they'd had to leave."

Crosby stayed behind his unit at one place in the Metz area to hear the "Padre say mass," and a lieutenant offered to drive him to the ack-ack battery where the unit was to go after mass.

"We batted along in the jeep and all of a sudden I noticed we'd run out of telephone wire—the wire along the road is a sure sign some other allied soldiers have been there first," he said.

**In German Lines**  
"Then we came to a town and I noticed the name—it was one I'd seen on the war maps that morning as being in German hands! I turned to the lieutenant and said, 'Do you know where you are?' He said, 'Nope, I'm afraid I'm lost.' I immediately asked 'Lieutenant, will you do me a favor? Turn this thing around and let's get the blazes out of here!'"

They had a hasty retreat, Crosby said, and that evening he had dinner with the commanding officer who asked Crosby where he'd been during the day.

"I told him," Crosby said. "He said, 'That's in German hands.' 'We had it for two minutes,' I told him."

## Seeks Program To Guard Documents

Congressman Requests Meeting Of  
Committee On Un-American  
Activities To Make Plans

By ERWIN D. SIAS  
(U. S. Staff Correspondent)

WASHINGTON, Oct. 13. — Rep. Eberhart (D., Pa.), today demanded a meeting of the House un-American activities committee to consider disposition of the group's voluminous records of communistic, fascist and Nazi activities in the United States.

Eberhart, a committee member, made his request on the assumption the un-American activities investigating group will be disbanded on January 3 when its congressional authority expires.

Committee reports, contained in 225 large filing cabinets in the committee's Washington, New York, Chicago and Los Angeles offices, represent complete records of communist, fascist and Nazi organizations and allied agencies since the congressional investigating group began operations in July, 1938.

**Would Guard Documents**  
Eberhart, in requesting the meeting, reminded the committee of the "importance of the documents" and recommended they be kept available to appropriate agencies of the government.

Possibility of a Republican House following the November elections, may see the committee continued. Its rejuvenation would have to be taken care of by Congress shortly after it reconvenes in November—or at least before the date of the committee's expiration.

Meantime, Robert E. Stripling, chief committee investigator, disclosed over 6,000 government-investigate agents—including federal bureau of investigation, secret service, military and naval intelligence operators—have come to the committee for information in the past 18 months.

There are several alternatives on disposition of the material—most of which was gathered under the committee's powers of subpoena and for the most part irreplaceable—including:

1. Maintenance of the files in the House with a skeleton staff to keep them up to date and available.  
2. Submission to the justice department.  
3. Place them on file with the clerk of the house.

## Change In Educational Methods Is Predicted

By ROGER W. BABSON  
Copyright—1944—Publishers Financial Bureau, Inc.

BABSON PARK, Mass., Oct. 13.—Education is the one industry in which almost no improvement has been made during the past 50, or perhaps 100 years. It is true that better school-houses have been built and the teachers are being better paid, whether or not these teachers are as well succeeding in winning the hearts and bettering the lives of their students is debatable. Certainly the educational standards have been declining, while the educational expenses have been increasing. For instance, 40 years ago the communities from which I drew employees required those who took the secretarial course to type 50 words a minute before graduating. This requirement has slowly been reduced so that today a girl can graduate from a secretarial course by doing 35 words a minute.

Schools Miss the Point  
However, employers are not so much interested in the "words per minute", which one can do, as in the "thoughts per minute". The subjects which are not being taught in school are the important subjects. As a result, most employers believe that education today is as backward as was the electrical industry, 200 years ago, in Franklin's day, when electricity could be obtained by flying a kite in the skies. School superintendents have yet to learn that the important things of life are the unseen and spiritual—not class recitations, written examinations and memory tests.

With a set of Encyclopedia Britannica on his desk, plus the ability to read, write and figure, the businessman has, for practical purposes, all the information available to any college graduate. The important question is whether he has the intangible assets, such as character, industry, initiative, courage and persistence. These are what our homes and schools should teach.

Statistics and Education  
I have been able to get satisfactory statistics on every industry except the educational industry. Therefore, I cannot prove that the students receiving the highest marks in school do not turn out to be the most useful and successful citizens. Certainly, character, industry, initiative, courage and persistence are of infinitely more value than the ability to get high marks. In fact, I believe that those who have these qualities will make a success in life whether or not they ever see the inside of a college; while those people lacking these qualities could never amount to much in a dozen Ph. D's.

Reasons for the reason and what is the reason for the reason? Educators tell us that the reason for the reason is the lack of inheritance and that I believe it is much more than this. There is something physically and spiritually wrong with a boy who has not these vital qualities. His brain, eyes, ears or his glands need physical attention. Educators should go about stamping out ignorance, faulty judgment, laziness, etc., as physicians have stamped out smallpox, cholera and typhoid fever.

Colleges 50 Years Hence  
The preachers should be of greater help in re-generating youth. Je-

sus hit the educational nail on the head when he said that we all must be born again in order to amount to anything. I am much interested in what the mental experts are accomplishing at certain state insane asylums. It seems paradoxical that the laboratories in these asylums may solve the educational problem of the schools and colleges; but present experiments are pointing that way.

The Babson Institute of 1994 will have a surgical department to operate on the glands and a dietary kitchen to supply certain students with needed minerals which they lack because of their home soil conditions. I am told that dumping students in ice water has waked them up and has changed the entire course of their lives. At any rate, only when we have discovered a foolproof method of arousing youth spiritually and mentally, will we be able to pay our present public debt of \$300,000,000 a year.

Most countries of the world use a standard time based on one of the even hour meridians as reckoned from Greenwich.

## May Advance New V-E Day Wage Plan

Administration Quarters Confident Outcry Against 'Little Steel' Formula Can Be Settled

By PHILLIPS J. PECK  
(U. S. Staff Correspondent)

WASHINGTON, Oct. 13.—Administration quarters remained strongly confident today that labor's outcry against the "Little Steel" formula may yet be stilled by the advancement of a new V-E Day wage policy instead of a break in the pay ceiling.

These sources insist that President Roosevelt has made no commitment to labor about modifying the stabilization yardstick and would be unlikely to do so after the grave railroad crisis which resulted last winter when a previous such commitment went awry.

Moreover, no precipitous haste is contemplated in solution of the pressing wage problem. The deci-

sion already has been postponed until after the election and further time probably will be required in reaching the answer. Meantime, V-E Day gradually draws nearer.

War Labor Board Chairman William H. Davis first publicly discussed the proposed V-E Day wage policy and it may be Mr. Roosevelt's verdict. It envisages higher overtime pay after V-E Day and would be designed to prevent a post-war decline in earnings.

## Election Result May Be Delayed Over Three Weeks

Vote Of Service Men Will  
Not Be Completely  
Counted Until End  
Of November

By WILLIAM S. NEAL  
(U.S. Staff Correspondent)

WASHINGTON, Oct. 13.—The American people, it developed today, may not know who their next president will be until at least three weeks after the Nov. 7 election because of the delay in counting the service vote.

The nation could be held in uncertainty even longer, but this is believed unlikely. While the soldier vote will not be complete until in December, the unofficial count will be made in the crucial states at an earlier date.

With some political forecasters predicting a close race for the electoral vote between President Roosevelt and Gov. Thomas E. Dewey, it is conceivable that the service vote will swing the election. In this case the nation would have to wait until it is counted to hail the new president.

### Eight States Permit Receipt and Counting of Service Votes After the Civilian Population Has Voted

A canvass of state laws gives these dates for receipt of soldier votes: Colorado, Nov. 22; California, Nov. 23; Missouri, Nov. 8; Washington, Nov. 25 and Rhode Island Dec. 4.

Maryland officials report a situation which may exist in other states. Forty thousand soldier ballots have been mailed out in Maryland. It is estimated that 10,000 have gone to unregistered voters, whose ballots must be sent to counties and cities for registration before the final tally is made. Thus, officials said, the Maryland soldier vote may not be completed until Dec. 1.

Reports continued to pile up which indicated that there will be a service vote of two to three million in the election.

### Estimate Large Vote

Some war department officials, it was learned, privately estimate a service vote of between two and a half and three million out of a total national vote of 40 to 45 million.

It is in the big and doubtful states that the service vote may be critical in the election. While an estimate of the number of service votes to be cast is admittedly virtually a guess at this time, the estimates of state officials include: California, 300,000; Pennsylvania, 180,000 to 200,000; New York, 375,000; Ohio, 200,000; New Jersey, 20,000; Michigan, 200,000; Illinois, 250,000 to 300,000. The soldier vote—if mostly for one candidate—could be decisive in these states.

With more than 11 million in the armed services, the total eligible vote is out by many factors, chiefly age. It is estimated that 18 to 20 per cent of those in the army are under 21 and unable to vote, while 30 to 35 per cent of those in the navy are under voting age.

### EL TORO

COLUMBUS, O.—(INS)—An Ohio-bred Aberdeen-Angus bull purchased for \$500 in 1938 by Ohio State University's department of animal husbandry has just been sold for \$10,000. Moreover, in the five years this bull, named "The Elite," has been a member of the university herd, 26 of his progeny have been sold for \$13,174.68, while 14 of his daughters have been retained by Ohio State and nine other cows bred to him were in calf at the time of the sale.

## 'Mr. America' Held

FOUR TIMES winner of the "Mr. America" title as the ideal of American manhood, muscular William Hillgardner, 25, of Brooklyn, N. Y., is shown as he appeared in New York court to answer charges of second-degree criminal attack and abduction. Hillgardner was extradited from San Pedro, Cal., following his return from Bombay, India, where he had been swimming instructor to numerous maharajahs. Father of a two-year-old son, Hillgardner was charged by Evelyn Smith, now 24 and married, with being the father of her five-year-old daughter. (International)

## Peace Time Army Training Given G.N.C.A. Approval

Universal Military Training In  
Peace Time Is Approved  
In Poll

Following a poll of the association, the Greater New Castle Association has taken a stand approving universal military training in peace time, Roger Jewew, executive vice president, stated today.

The idea is set out in three divisions, which have been propounded by the United States Chamber of Commerce. The first is "the United States should adopt a policy of universal military training for young men in peace time."

The second is "the schedule of military training should be flexible enough to assure minimum dislocation in the educational and business life of young men."

The third is "upon completion of the required military training, trainees who do not enlist in the regular military organizations shall be enrolled in reserve components."

Upon all three the association gave a "yes" vote.

## Admonishes Teachers Regarding Pedestals

Teachers Must Not Fall Off Pedestals That Children And Parents Have Created

PITTSBURGH, Oct. 13.—(INS)—Teachers must take care that they don't fall off the pedestals on which pupils and parents place them, C. Herman Grose, Erie superintendent of schools, on Thursday told the 16th Western Pennsylvania Education conference.

The three-day conference includes nearly 2,500 teachers from Allegheny and surrounding counties. Grose, former assistant supervising principal in Mt. Lebanon, pointed out.

Teachers are regarded by their pupils as characters worthy of emulation. A teacher cannot remain long on a pedestal if he adopts a "do as I say not I do" policy.

Although on a pedestal, teachers can still enjoy a normal life, he contended.

Grose said instructors must have other qualifications besides scholarship. He listed these as teaching ability, knowledge of a subject and of their pupils, a desire to teach, physical and mental health, and being "the right kind of a person."

## Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ-laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

### Columbus Society Anniversary Banquet

Founders Are Presented With Testimonials; Memorials To Deceased Founders

Members of the Christopher Columbus society, with their wives as guests, on Thursday evening had their annual banquet in Columbus hall, South Liberty street. The occasion was in honor of the founders of the society and their wives.

Five hundred persons sat down to a sumptuous repast.

An orchestra played the "Star Spangled Banner", which also furnished music throughout the evening.

Rev. Fr. Sebastian Ippolito of St. Lucy's church gave the invocation. Joe Zumpella, chairman of arrangements, presided, who in introduced Peter P. Cardella as toastmaster of the evening.

The toastmaster called on the following, who gave short addresses on the progress and accomplishments of the society: Ferdinando Adamo, Antonio Errico, Giuseppe Conti, Antonio Martino, Alfonso Calvanese, Antonio Conti, Domenico Ruozzo, Andrew Mastrotto, Luigi DiDomenico, Francisco Dattilo, secretary; Mrs. Margaret Sinibaldi, president of auxiliary; Peter Piacco, James Scarazzo, Gaetano Masone, Louis Gaspare, Frank J. Nugent and Louis Ezzo, president.

It was announced that the society

had purchased \$13,000 worth of war bonds, and that 50 of the members were in the armed forces.

The toastmaster presented the following active founders with a beautifully framed testimonial: Ferdinando Adamo, Enrico Dattilo, Antonio Errico, Antonio Martino, Alfonso Calvanese, Antonio Conti, Guiseppe Napolitano, Giovanni Rega, Domenico Ruozzo, Andrea Mastrotto, Pietro Piacco, Gaetano Masone and Vincenzo Zumpella. Framed memorials were also presented to next of kin of deceased founders, active at their death: Raffaele Ruozzo, to son Frank; Luigi Palumbo, to son Frank; Carmineantonio DiDomenico, son Samuel; Angelo Orlando, son Emilio; Giuseppe Izzo, widow Philomena; Raffaele Gaspare, son Louis; Antonio Poppio, widow Maria.

Two splendidly bound volumes of books, "Admiral of the Ocean Seas" by Samuel Eliot Morison, were presented to Louis Ezzo, president, by the founders, the books containing the autographs of the founders. The society presented the president with a \$100 check, which he returned to be used toward the expense of the banquet for the founders. The president graciously gave his thanks for both gifts.

Before the banquet a picture was taken of the founders, one to be given to each founder. Vice-President Joe Zumpella, chairman, thanked his committee, the kitchen and table committee, and all who had helped to make the occasion such a splendid success. A period of dancing was enjoyed, following the banquet.

Committee on arrangements was: Joe Zumpella, Francisco Dattilo, Patsy Picciella, Alex DeAngelis, Greeny Orlando, Mike Mash, Frank Ruozzo, Pete Cardella and Joe Compagnone. Kitchen under the supervision of Mrs. Jane Picciella, and Mrs. Mary Ezzo; Mrs. Anna Piacco, Mrs. Ernestine Pelosi, Mrs. Jennie Pitocchi, Mrs. Josephine Santillo, Mrs. Mary Domenick, Mrs. Alce Conti, Mrs. Marzillo Comparone, Mrs. Dina Colli, Antoinette Pollio; table, Isabella Masters, Mary Domenick, Mary Iovannella, Louise Domenick, Angelina Garafolo, Mary Adamo, Clara Coppel, Mary Suisi, Angelina Mingione, Leona Felix, Theresa Ross and Philomena Gennock.

For the occasion two lovely bouquets were presented, one by the Christopher Columbus society auxiliary and the other by their president, Mrs. Margaret Sinibaldi. The committee presented the founders with a flower each.

**Former Mayor  
Makes Charges  
Against Autoist**

Charles B. Mayne, former mayor, today reported to police headquarters he narrowly escaped being struck by an auto at East Washington and South Mill street several nights ago and has requested police to order the autoist into police headquarters and he will appear against him as a witness.

The ex-mayor reported he was walking on the south side of East Washington street. He asserted the red light was "east and west" against the autoist.

He claimed the motor car was steering left and nearly ran him down and he expressed the belief the motorist "tried to hit me."

He said he procured the license number, gave it to police and asked that the motorist be summoned to headquarters.

## Chicago Lumber Firm Executive Reported Suicide

CHICAGO, Oct. 13.—(INS)—Harry V. Hogans, 54, wealthy Chicago lumber firm executive took his own life last night during a telephone conversation with a woman friend, police reported today.

The friend was identified as Mrs. Jeanette Tees, 38, an attractive brunette divorcee with whom Hogans had been keeping company.

Their conversation, it was learned, concerned a dinner engagement which Mrs. Tees was unable to keep last evening. Hogans from his downtown hotel room, threatened to shoot himself and Mrs. Tees, who was at her home on the far north side of the city, joked with him about it.

"Go ahead and shoot," she was quoted as jokingly saying.

A second later there was a loud shot, Mrs. Tees said. There was no answer from the other end of the line and she called the hotel desk. A bell boy found Hogans' body stretched out on the bed, the phone in one hand and an old revolver in the other.

## BRITISH SHOW MUCH INTEREST IN U. S. ELECTION

Returning Congressmen Report  
Britishers More Concerned  
Than American Soldiers

By RAYMOND WILCOVE  
U. S. Staff Correspondent

WASHINGTON, Oct. 13.—Several congressmen reported today, following a trip to Great Britain and France, that the English seemed far more concerned about the presidential election than American soldiers overseas.

With widespread interest in this country in the soldier vote, six congressmen—three Republicans and three Democrats—were polled as to the reactions of "G. I. Joe" in England and France.

Rep. Poage (D) Texas, Miller (R) Neb., and Stockman (R) California, agreed that the British were exhibiting more interest in the outcome of the election than American service men. Rep. Hays (D) Ark., disagreed.

Stockman commented that the English were "wild about Roosevelt" and would vote for him 10 to 1 if they could.

There was widespread disagreement, however, on the number of soldiers voting, although all agreed that the army was "going all-out" in an effort to get the men to cast their absentee ballots.

The congressmen's estimates of the percentage voting ran from as low as 25 percent for soldiers in France to as high as 60 percent for those in England.

One Democratic congressman, who for obvious reasons did not care to be quoted, expressed the opinion that most of the soldiers were voting for Gov. Thomas E. Dewey, the Republican presidential nominee.

The others—among them Reps. Fisher (D) Texas and Phillips (R) Calif.—thought the servicemen were voting "the same as if they were home" although one gave a slight edge to President Roosevelt "because he's the commander-in-chief." Poage was the most pessimistic about the size of the soldier vote. "Those with the gripes are the only ones voting," he said.

One congressman said that many soldiers—especially those in combat areas—"didn't apply for ballots, because it was too much trouble."

### HOSPITAL RENAMED

ATLANTIC CITY, N. J.—(INS)—All that confusion over the England General hospital, Atlantic City, at last will be ended. For the benefit of those who thought the British government was operating a hospital here, the institution will now be known by its full name, The Thomas M. England hospital. It was named for a lieutenant colonel who made himself a human guinea pig in the fight on yellow fever after the Spanish-American War.

## BRIEF NEWS OVER STATE

SCRANTON—Housewives will be queried by the U. S. department of labor concerning this week's food clothing as well as clothing acquired since January. The questions will be asked in line with a federal government cost of living survey. Similar indices will be compiled in 99 other cities in the nation.

LANSDALE—Among treatments administered by a local hospital was that for raccoon bite. The victim was Mrs. Samuel Hudak, who suffered two punctures while attempting to feed the animal.

ERIE—Lawrence T. Meek told a divorce court judge that the wife he married December 24, 1936 had turned out to be a poor Christmas present. She had omitted mentioning the existence of another husband when they were wed.

PITTSBURGH—City officials have been wrestling with the dog-catching problem ever since the Animal Rescue League, which had previously rounded up stray animals indicated it may quit the job. The league's annual fee was a mere \$12,000.

PHILADELPHIA—Persistence achieved the objective of 21-year-old Vera F. Baker, a full-blooded Cherokee Indian from Birmingham, Ala. She went on the warpath and hunted up the Women's Army Corps recruiting station where she announced her intention of remaining until she was enlisted in the 28th WAC division.

# Men From City Given Summons

## Selective Service Board One Notifies Men Called Up In October Draft

Selective Service Board One, of New Castle, today released the names of those who have been summoned to report for induction into the armed forces later in the month, in the October call.

These men, who had previously passed their pre-induction physical examinations, have been awaiting call for some time.

Those summoned were:

Everson Gordon Robinson, R.D. 5, Joseph Nemeth, 19 West North street.

Ralph Edgar Turner, 3 East Garden avenue.

Paul Kenneth Buckley, 349 Nesbitt street.

John Victor German, 1111 Beatty avenue.

John Charles Reed, 1207 North Mercer street.

Maurice Clinton McLure, 102 Hillcrest avenue.

William Vance McNicholas, 506 Spruce street.

Perry Joseph Skunder, 720 Brooklyn avenue.

Michael Addison Robinson, 814 Nesbitt street.

Donald Rose Klingensmith, 1024 Croton avenue.

Donald Armour Schenker, 10 North Greenwood avenue.

## Suggests Four Should Be Put In 'Cold Storage'

WASHINGTON, Oct. 13.—(INS)—Sen. Edwin Johnson (D) Colo. declared today that Earl Browder, Sidney Hillman and Henry A. Wallace "should be put in cold storage along with Eleanor" until after the presidential elections.

Johnson suggested that Democratic National Chairman Robert E. Hannegan should take that step because those he named "are proving to be a millstone around the president's neck."

Johnson's recommendation of "cold storage" for Communist Party Leader Browder apparently stemmed from his recent speech in New York during which he stressed that President Roosevelt's continuance in office is necessary to the Communist party.

His objections to Hillman, leader of the C. I. O. Political Action Committee, is "because he is making himself the issue," Johnson said.

The senator's desire for Wallace's silence "speaks for itself," Johnson said, "because he antagonizes too many people" every time he speaks.

## Boy Injured In Crawford Ave.

George Welshimer, youth, of 314 South Walnut street, has a badly bruised instep today reportedly having jumped backward from a sidewalk against city garbage truck which ran over a foot, in Crawford avenue.

The boy was playing with others in that avenue when the truck driven by Frank Cochran, veteran truck operator, when he made the jump.

County Superintendent of schools John C. Sylling took the boy to the Jameson Memorial hospital and Cochran reported immediately at police headquarters.

The accident occurred about one p. m. yesterday.

## Dollar For Dewey Club Is Formed

NEW YORK, Oct. 13.—(INS)—Rank-and-file members of local 15, Marine and Shipbuilders Union, CIO in the Bethlehem shipyards revealed today that they have organized a "dollar for Dewey" club to counteract the "dollar for FDR" movement supported by the CIO political action committee.

L. R. Fowler, a shipfitter, emphasized that the group was in no way hostile to the CIO as a union, but was purely political in motives.

"We're all loyal dues-paying members of a union we believe in," he explained, "but when Hillman and Browder come along to jam the political action committee down our throats—that's not part of the American labor movement."

## Ellwood To Issue 'A' Books Tuesday

Will Be Given Out At Lincoln High School And Wampum School Tuesday Evening

New "A" books for gasoline in Ellwood City will be issued at the Lincoln high school and at the Wampum school Tuesday evening, Oct. 17, from seven until 9:45, the Ellwood City Ration Board announced today.

Applications may be obtained at service stations between now and Tuesday. In order to get the books the applications must be filled out and the covers of the present "A" books must be attached.

Chairman John E. Powell of the ration board requests the public to comply with the above hours because School Superintendent J. Ellis Bell and a number of teachers are volunteering their help at that time. Applications which are mailed to the board will not be processed for a period of time because of the heavy load of work which is on hand at the present time.

Persons in outlying districts who cannot get to the schools Tuesday evening may mail their applications with the present "A" covers attached, to the board, Chairman Powell added.

## REBROADCASTS GAMES IN ITALY

Charles E. McGrath of 133 Euclid avenue has received word from his son, T-5 Charles E. McGrath, Jr., engineer of broadcasting, stationed somewhere in Italy.

The latter states that he last week rebroadcast the world series baseball games, sent by short wave, direct from St. Louis.

McGrath says it was great to hear the voices of the American people cheer at the games, and hear the bat striking the ball, especially when it resulted in a home run. Of course it was 7:30 in the evening there and 2:30 here when the ball game started.

## Bryn Mawr Woman Fatally Injured

BRYN MAWR, Pa., Oct. 13.—(INS)—An accidental fall in her home, "Rodric Manor," in Bryn Mawr was blamed today for the death of Mrs. Katherine Kremer Page, wife of I. Rodman Page, a coal mine operator.

Coroner W. J. Rushong, of Montgomery county, said Mrs. Page, who was 51, apparently slipped on a bathroom rug yesterday and fractured her skull when her head struck on the tile floor. She was dead when found by a butler.

Britain's national book and salvage campaign has reached its target of 100 million books and magazines.

## Formosa Base Is Temporarily Out Of Service

By JOSEPH A. BORS  
U. S. Staff Correspondent

WASHINGTON, Oct. 13.—The daring 1,000 carrier-plane assault against the mighty Japanese bastion of Formosa paved the way today for temporarily paralyzing that base apparently in preparation for new moves against the enemy.

Destruction of 221 planes in the Formosa assault indicated that the American Pacific fleet intended to wipe out Japanese air power in the Philippine area in preparation for Gen. Douglas MacArthur's anticipated invasion of the far eastern commonwealth.

Admiral William F. Halsey's mighty third fleet began the job several weeks ago by sweeping Japanese air power out of the Philippines while American forces seized the strategic Palau islands, 600 miles to the east.

The latest phase of Halsey's devastating sweep started October 9. When carrier planes roared over the Ryukyu islands near Formosa and destroyed 89 planes. In that assault 12 ships were sunk, 14 probably sunk and 12 damaged.

**Strong Jap Defense Point**

Two days later the task force launched its estimated 1,000 planes against Formosa, which is considered one of the strongest and most important defense points still held by the enemy in the Far East. Despite the warning given by the Ryukyu assault, 97 enemy planes were caught on the ground in Formosa and destroyed while 124 were shot out of the air.

In addition, 16 cargo vessels were sunk and 19 similar type craft damaged around Formosa.

It was considered significant that no enemy warships were caught in the first carrier assault on Formosa, indicating that the remnants of the enemy fleet were still hiding deep in Japanese waters. Formosa is approximately 600 miles from Tokyo.

Admiral Chester W. Nimitz recently reported that his moves in the Palau area were designed to provide covering bases for MacArthur's invasion of the Philippines.

No assault into the Philippines could be certain of success unless Formosa were knocked out at least temporarily as an air base. The island is about 400 miles northwest of the Philippine Islands of Luzon which the carrier planes struck October 10.

The latest developments in the Pacific indicate allied forces are moving swiftly to cut off the Japanese from the Philippines, the East Indies and Malaya.

## Officer Stages Tavern Shooting

CHICAGO, Oct. 13.—(INS)—Desk Sgt. Walter Gray of the suburban River Forest police department was captured in his home in River Forest shortly after other officers said he went berserk and shot two men and a woman in a Cicero tavern.

Chief Irvin Kanovsky of the Cicero police said Gray, after drinking at the tavern, whipped out his gun and forced his victims and others in the place to stand against a wall.

For an hour and a half, Chief Kanovsky said, Gray acted like a maniac, threatening to kill all of them, or toasting them as he continued to drink at the bar.

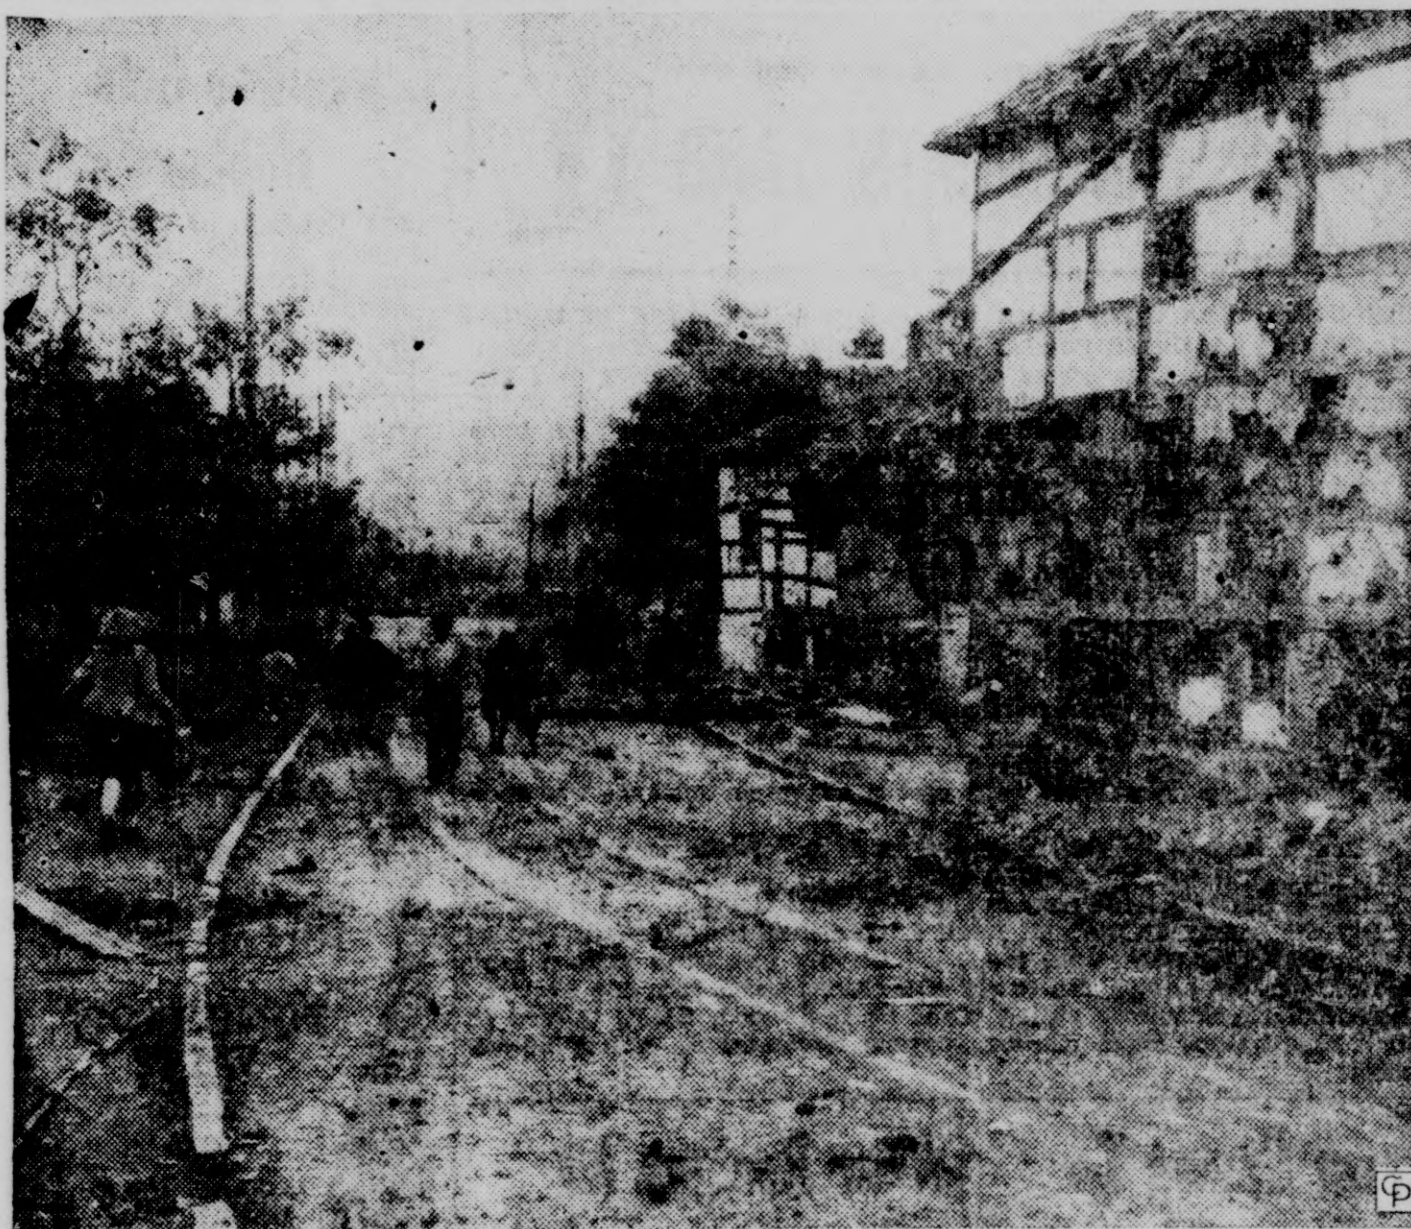

When one of the victims, near collapse from standing with their arms overhead, staggered, Gray reportedly emptied his gun at them.

**Roosevelt Undecided Regarding LaGuardia**

WASHINGTON, Oct. 13.—(INS)—President Roosevelt said again today that he was not yet ready to announce any decision on reports that Mayor Fiorello LaGuardia of New York would be sent to Italy as a military administrator of civilian affairs. He said wait a few days more.

Civilian employees in the shipping department of the Army Ordnance Arsenal at San Antonio, Tex., salvage approximately 1,000 pounds of corrugated paper cartons a day.

## Lt. W. D. Nelson In Heroic Mission

Second Lt. William D. Nelson, 21, son of Mrs. Flora E. Davis, 916 Croton avenue, is a navigator with a squadron attached to a B-17 Flying Fortress group of the 15th air force which was recently cited for one of the outstanding bombing missions of the war, according to an announcement from 15th AAF headquarters in Italy as follows:

The group was cited for an action July 18 when 26 Fortresses of the group participated in a mission against the airframe and installations at Memmingen, Germany. Adverse weather scattered the bomber formations en route to the target with the result that the Fortress group, which was led by Major Louis T. Seitz of 3769 40th street, San Diego, Calif., approached the objective alone and without fighter escort.

Shortly before reaching the airframe the bombers were attacked by some 200 German fighter planes. The fighters bored in at the rear of the formation, and in the first sweep destroyed the last box wiping out one entire squadron.

Pressing their attacks relentlessly, the fighters knocked down seven more Fortresses while the remaining bombers fought on to the target and dropped their bombs with devastating effect. During the spectacular air battle the group's gunners accounted for 65 enemy planes destroyed or damaged, many of them falling to the guns of stricken bombers before they plunged to their death. In addition the group's bombs destroyed or damaged 35 more planes parked on the enemy airframe. In all the unit lost 14 Fortresses and 143 officers and enlisted men.

**GET THE IDEA?**

HARTFORD, Conn.—(INS)—The pace may have been too swift—the club didn't say—but the Idea-A-Month club of Norwich acted on the latest idea, and filed papers of dissolution with the Connecticut secretary of state.

## APPEAL TO YULE SHOPPERS

NEW YORK.—(INS)—Because of an acute delivery problem confronting the nation's stores, the National Retail Dry Goods Association has launched a drive to induce Christmas shoppers to carry their own gift packages. Stores at the same time are being asked to eliminate unnecessary wrappings. The paper shortage at Christmas time is expected to be critical.

There are now almost 100,000 men in the Fighting French land forces.

## SMOKELESS BRAKES

DETROIT.—(INS)—Car owners won't have to worry about smoking brakes in the postwar era. A new asbestos and synthetic resin brake lining, now used exclusively by the armed forces, will eliminate the problem. The lining is the result of four years of costly research and development and has been proved on almost a million jeeps in combat areas.

## Farm Machinery Production Will Be Boosted Now

WASHINGTON, Oct. 13.—(INS)—President Roosevelt announced today that he has directed J. A. Kruis, chairman of the War Production Board, to increase production of farm machinery to the greatest possible extent in order to replace worn-out farm machinery and keep the nation's food production up to its phenomenal war-time level.

Mr. Roosevelt said that America's food production will be far greater in the post-war period than before the war.

## Report Hungarian Cabinet To Meet

NEW YORK, Oct. 13.—(INS)—An NBC correspondent in London reported today that the Hungarian cabinet will meet tonight to make its final decision on whether to request armistice terms of the allies.

NEW YORK.—(INS)—Hitler made the dive bomber famous with his Stukas, but U. S. naval aviators invented the technique over the jungles of Haiti in 1919. Dive-bombing tactics were actually developed at the naval air station at Pensacola, Fla., during the middle 1920's. Flying Magazine points out.

## What You Buy With WAR BONDS

The anti-tank mine is an ingenious device which helped considerably in the Battle for Africa. Planted in the desert sands where the enemy is expected to pass, it needs only to be rocked minutely by truck wheel, tank tread or even foot-step to explode devastatingly.

In our global war we need thousands of anti-tank mines to combat the cunning of Jap and Hun. Your purchase of War Bonds, increased with your increased income, will help pay for them. You can do your bit for your son, father, brother or neighbor's son with your War Bond purchases. "You Have Done Your Bit, Now Do Your Best."

## New Invasion Force About To Land In Greece

By MICHAEL CHINIGO  
U. S. Staff Correspondent

Rome, Oct. 13.—For the first time since the war began, an Army announced its future intentions today when the Allied command in the Mediterranean issued an official statement advising that a new invasion force is about to land in Greece.

"A force under my command is about to land in Greece. Your day of liberation is at hand."

The statement coincided with reports reaching Rome that the Germans, forced out of the Peloponnese by previous air and seaborne British landings, already are evacuating the Greek capital of Athens.

Alaskan fishermen are permitted to take 80,000,000 more pounds of herring this year than last, under new rules issued by the secretary of the interior.

# New Castle And Farrell Play Here Tonight

## Battle At Stadium Attracts Interest

New Castle Hopes To Shake Losing Streak, In Farrell Game Tonight

Kickoff Slated For 8 P. M.; New Castle Lineup Undergoes Shakeups

New Castle high school football team will play Farrell high "Night Riders" at the stadium tonight in the sixth game on the 1944 grid card. The kickoff is scheduled for 8 o'clock. Indications point to a big crowd for the schoolboy battle, with Farrell sending more than 1,600 students and followers here for the contest.

will come out battling hard from end to end on the line and in the backfield. The loss of Panella and now Walls has given New Castle a severe setback and one that hurts the offensive attack as both Panella and Walls are fast men. It is hoped that the injury to Walls knee will mend in time for the Perry high of Pittsburgh game a week from tonight.

NEW YORK — (INS) — Arnold Lynn, 10, of Portland, Ore., left home with 20 jelly sandwiches and arrived in New York a week later with an itching foot. He made the trip on the "blind end" of railway baggage cars, he said, and even stopped three days in Chicago. Police found him wandering around New York and in the attendant publicity his picture was printed. This led to his recognition by an aunt, who persuaded police to release him.

## GRIBBLE IS STAR: WASHINGTON WINS

Gribble Only Tallies 26 Points As George Washington Tops Sharon, 26 To 0

(Special To The News)  
SHARON, Oct. 13.—George Washington Junior High brought a young halfback here yesterday to the stadium by the name of Gribble, and this youngster put on a one-man show for the edification of the fans by scoring all four of the New Castle touchdowns and made two extra points, to make it George Washington of New Castle 26, Sharon Junior High 0.

Never has a young man put on a more sincere and scintillating performance. Single-handed he ran the Sharon team into a dizzy condition with long runs of 40, 50 and so forth, for touchdowns, and then kicked the extra points to make it that much safer.

Gribble's first touchdown came in the first period by going 40 yards off tackle after Panella. Gribble and Gilmore had alternated in taking the ball down the field. In the second period, after a steady march down the field Gribble plunged over for the touchdown, but missed the conversion.

In the third period Washington was held scoreless. Sharon could not advance through the powerful Washington line, and never once threatened. Washington tallied twice in the final period. Panella caught a long pass and put the ball on the 2-yard line, where Gribble plunged over for the touchdown, and missed the extra point.

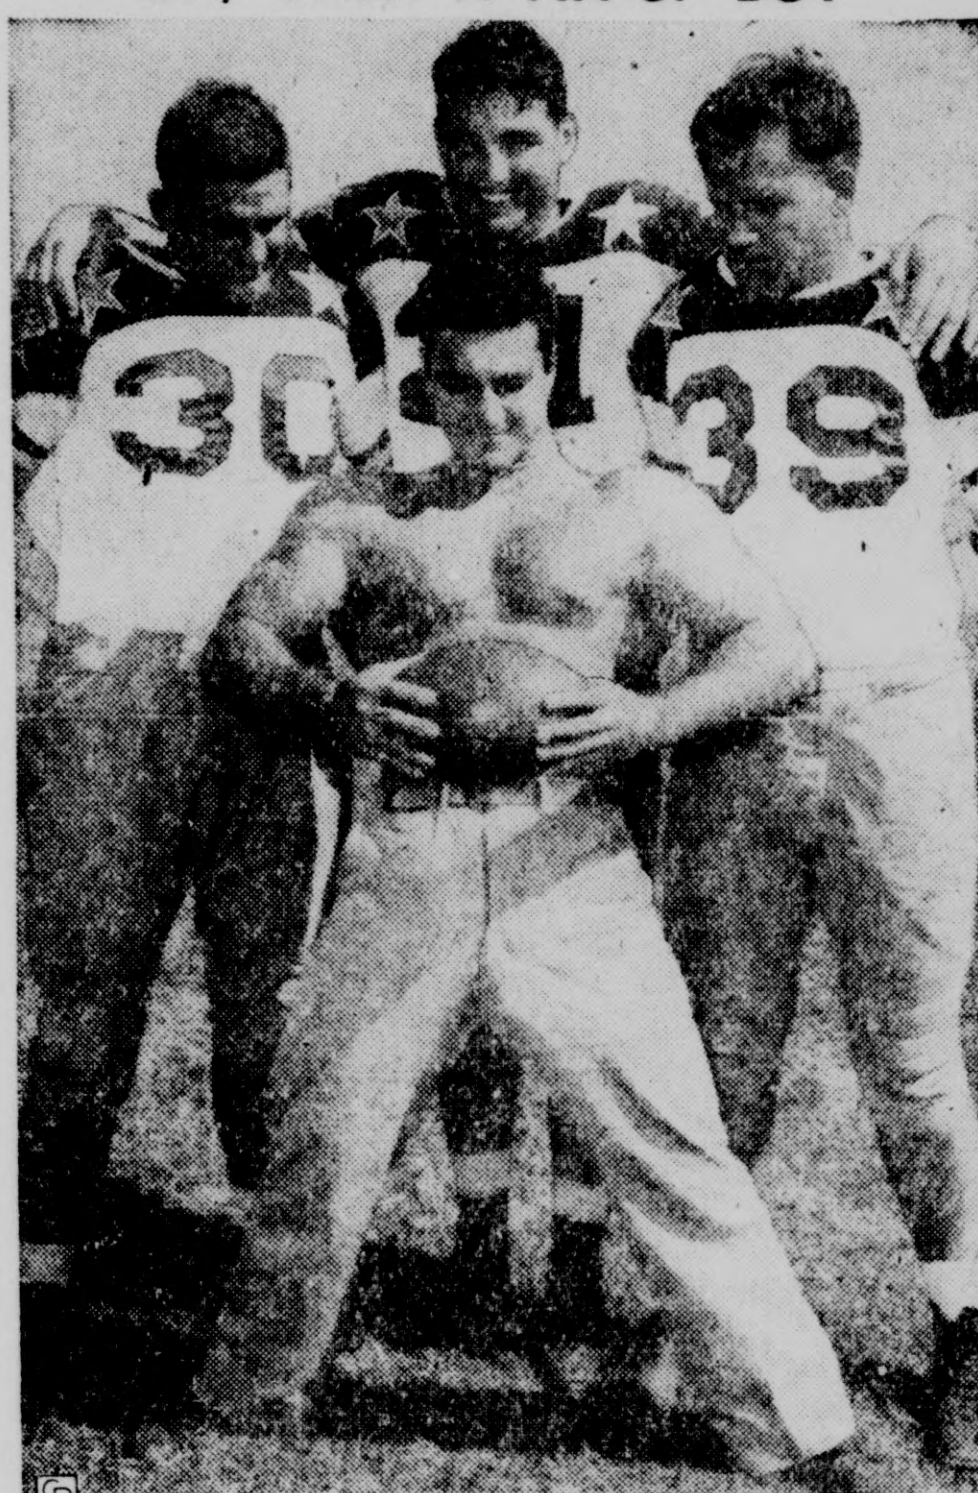

Coach Art Alexander used his subs most of the final period, but it was Gribble who climaxed a great afternoon by racing 50 yards midway in the fourth stanza for his fourth touchdown, and kicked the extra point to make it Washington 26, Sharon 0.

Peluso, Branscome and Allison played a whole of a game on the line for Washington, with Gilmore, Panella and, need we say, Gribble doing swell work in the North Hillers' backfield.

## OH, GALS! A PIN-UP BOY

LITTLE "MR. AMERICA" himself, Sgt. Kimon Voyages, physical training instructor at Randolph Field, Texas, is dwarfed by the three hefty linemen of the Randolph Field team. Left to right the behemoths are Clem Crabtree, 250 pounds; Martin Ruby, another 250-pounder; and William Causey, a mere 240.

THIS is the time o'year when one enjoys a full drink of nature's loveliness and, should Sunday prove equally as entrancing as yesterday it is likely that scores of persons who enjoy hiking will trek through field and wood to commune with nature as gold and scarlet dances before their eyes. Other raiment of autumn is to be seen hereabouts while Here and There where our boys are scattered the guns of war roar. While their hearts are of oak and they realize the job must be finished, yet they too yearn to be near where they could enjoy peace.

Before Sunday comes, however, there will be many battles on the gridiron. Some teams will go up and other eleven will go down. . . . Listening to a radio account of a gridiron tangle recently the commentator shrieked: "He was hit by four men but he knocked them down" which caused us to opine that possibly he should have been a prize-fighter. . . . Indications point to a resumption of amateur boxing here in the near future with the Jefferson A. C. as the promoter. . . . Recently Bill Jolly opined that he would like to get back in the professional game. However, he doesn't want any part of the game until the war ends.

Although George Barrett, mail carrier is no slouch as a fisherman he handed a neat compliment the other day in the direction of Wayne Sines. "He is the best fisherman in this city," said George. . . . Up around Beaver Lake where George and Adolf Lang fished they thought George was a mighty fine fisherman, too. . . . Usually one finds that a man who can do things always like to say nice things about someone else. . . . ## Expect Games To Draw Big Crowd

Two Good Baseball Games Sunday: City Titular Series To Start

Plans are going forward for the twin baseball benefit for Pat Seibert, former pitcher for the Butler Yankees who was injured last June while playing with an I.A.M. team on the E. & A. field. The Johnson Bronze will clash with the I.A.M. in the first of a three games series for the City League title and the Moose will oppose the I.A.M. night turn club on Marshall field. Games will start at 1 p.m. Sunday. Arson Armoud, John Stepp and Art Daglish, the committee, expect a large crowd of baseball fans.

## ELLWOOD JUNIORS TROUNCE FRANKLIN

Score Is 32 To 0, For Worst Defeat Suffered By Franklin In Four Years

(Special To The News)  
ELLWOOD CITY, Oct. 13.—Combining long runs by William O'Brien together with a powerful attack, the Ellwood City Junior High eleven accomplished something yesterday at Ellwood that no other junior high team in the past four years has been able to do—defeat Ben Franklin High. The score was 32 to 0 in a complete rout.

O'Brien raced 67 yards for one of his three touchdowns, the longest run of the game and a most sensational one. The majority of the Ellwood touchdowns came on long runs. In the matter of first downs the tally read Ellwood 7, Franklin 3.

**Williams-Pitzola Out**  
Playing the best game for the Commodore coached machine was Paul Cuba, Jr. Jasper Williams at tackle and Sallie. Forced out of the game by injuries were Williams and Pitzola and it is likely that Franklin has lost the services of these two stars for the rest of the season.

For Ellwood the backfield play of O'Brien, Watson and McDougal was outstanding, this trio making life miserable for Franklin all afternoon with long runs and line plunges.

## Committee Gets Hubbard's Okay

Art Daglish, of the Pat Seibert baseball benefit committee announced today that Cal Hubbard, the famous former Geneva star football player under Bo McMillan, and now a famous American League baseball umpire living in Zelenople, will be here Sunday for the Seibert benefit doubleheader at Marshall field.

Hubbard a man of some 265 pounds has had a varied career in sports, being at one time mentioned for All-American honors while at Geneva.

## Ellwood High Tops Beaver Eleven 14-7

Wolverines Run Into Tartar In Beaver But Win Sixth Game Of Season

Desport Tallies Both Touchdowns For Blue And White, Sherrbaum Scores

(Special To The News)  
BEAVER, Oct. 13.—Ellwood City High's undefeated and untied Wolverine football machine ran into a tartar at Beaver's Gypsy Glen field here last night and although the Blue and White clad warriors won it was a battle all the way. The final tally was 14 to 7. A crowd estimated at around 4,000 witnessed the schoolboy battle here.

It was the first defeat for Beaver after winning four previous tilts. It was the sixth straight win for the Ellwood team, their third win over a Beaver Valley team. Rochester and Monaca having gone down previous before the ferocious Wolverines. The win kept Ellwood in the running for valley honors.

**Beaver Takes Lead**  
Beaver got right down to work in the first few minutes of play last night and ran the score to 7 to 0 before the Wolverines knew what was happening. Beaver took the kickoff from Ellwood on the Beaver 30 and drove straight down the field for a total of 68 yards until the 2-yard line was reached and then Dick Sherrbaum the flashy Beaver left-half raced it over for a touchdown. His tenth of the season and gave him a tie with Bill "Tarzan" McClintock of Ellwood. Hawkins kicked the extra-point for Beaver. Neither side could get very far

in the second period and the first half ended with the Beaver eleven in front 7 to 0.

**Desport Tallies Twice**  
Ellwood City took the kickoff from Beaver to start the second half or third period and after a march of 71 yards down the field with Vince Manauzzi ripping off two swell gains for 22 and 21 yards to put Ellwood in scoring position Joe Desport ran the ball over from the 5-yard line on a quarter-back sneak play and the score was tied, 7-7. When Mastlak raced in and booted the extra-point to make it 7-7.

Near the close of the third period Beaver had the ball deep in their territory on a punt from Ellwood City. Sherrbaum faded back and threw a long pass that Desport intercepted on the Beaver 43 and sped straight down the sidelines to score Ellwood's second and game-saving touchdown. Again Mastlak raced in and kicked the extra-point to make it Ellwood 14—Beaver 7.

**Meet Aliquippa Next**  
Neither team did much ground gaining in the fourth period. Beaver tried many passes out failed to connect. Ellwood was content to protect the lead. In first downs Ellwood had 12 and Beaver 10. Sherrbaum was the whole works for Beaver in the backfield, running, punting and passing. For Ellwood City the work of Cartwright, Lucas, Geneva and Konyak featured on the line, while the entire backfield played a great game. Beaver had the flashy "McClintock" bottled up all night, but Manauzzi ran wild and kept the Blue and White on top.

Ellwood is looking ahead to next Friday night at Lincoln Field in Ellwood when they must face the powerful Aliquippa High team in a Class AA battle. Coaches Gills and (Continued On Page Twenty-One)

## Church Golfers Enjoy Banquet

Upwards Of 50 Men Gather In First Presbyterian Church, Morgan Jones Sr., President

HONOR ROLL IS GIVEN TO LEAGUE

Upwards of 50 New Castle Church Golf League members gathered in the basement of the First Presbyterian church last night at 6 o'clock in honor of the Highland U. P. team, 1944 church league champions, and to enjoy a banquet.

Prior to the members sitting down to the well laden tables, one verse of "America" was sung and then Rev. J. J. McVaine, pastor of the First Presbyterian church offered the blessing. Following the meal Rev. J. J. McVaine was introduced by President Dave Aston and he responded by greeting the golfers and congratulating the Highland team on their championship. John Cartwright responded for Highland in his capacity as captain.

President Aston presented each Highland player with a golf ball for winning the title. When the war ends a trophy will be secured for Highland. Morgan Jones, Sr., secretary of the 1944 league gave his report as did Mont Magill, assistant treasurer of the league.

**Presents Beautiful Plaque**  
Mrs. Ethel Ludwig, owner of Castle Hills golf course was a special guest of the league and after acknowledging a fine toast presented the league a beautiful plaque honor roll to contain the names of those from the league who have been in the service, and for those who have given their lives.

In a fitting tribute to Lieut. James Elder, former president of the Church Golf League, and Sgt. Bruce Headland, a member of the league for several years, the men stood with bowed heads for a minute of reverence.

**Morgan Jones President**  
An election of officers for the 1945 season was the final thing on the evening's calendar and it resulted in Morgan Jones, Sr., being elected as president; John Cartwright as vice-president; Karl Rohrer as secretary; Charles Ward as assistant secretary; Cliff Young as treasurer; Newell Kelly as assistant treasurer.

The dinner was prepared and served by the ladies of the Helena Missionary society of the First Presbyterian church. Pep singing during the evening was led by Fred Scheppele. Plans are under way for a bigger and better league next summer.

## Postal Rates Again Revised

Money Order Fees Are Cut  
While Special Delivery  
Rates Are Given Slight  
Boost

ARE EFFECTIVE  
ON NOVEMBER 1

New postal rates, which become effective on November 1st, have been announced by Postmaster William R. Hanna, following receipt of the new schedule of rates today.

Under the change, money order rates go back to the old prices which were in effect before the change made last spring, while special delivery rates are advanced from 10 cents and 15 cents, to 13 cents and 17 cents.

Fees for money orders range from six cents to 22 cents, on money orders from one cent to \$100. Under the rates which became effective last spring, these ranged from a minimum charge of ten cents to a maximum of 37 cents, and are now back on the old basis again.

Insurance fees go back to from three cents to 25 cents for insuring mail valued between one cent and \$250. The minimum charge of three cents is less than the rate which was in effect before the change was made last spring when the minimum was five cents.

COD rates range from 15 cents to 60 cents, unregistered; and for registered COD from 24 cents to 90 cents, on values from one cent to \$200.

The new special delivery rates are 13 cents per letter or package up to two pounds, first class, and 17 cents for second, third, and fourth class mail. Between two pounds and 10 pounds, the rate is 20 cents for first class mail, and 25 cents for second, third, and fourth class mail; and over 10 pounds, is 25 cents for first class mail, and 35 cents for second, third and fourth class mail.

A new fee has been added on COD matter, a charge of five cents being imposed for notification to the addressee of inability to collect.

## 'A' Applications Are Now Available

Applications for new "A" coupons have been distributed to most county service stations, and to a number of those in the city. J. Lee McFate, chief clerk of the War Price and Rationing board, said this morning.

Service stations which have not yet received applications may get them at the ration board offices on Pearson street, as may individuals who have been unable to get them at their service stations. Mr. McFate said.

Applications must be accompanied by the cover of the old "A" stamps when they are mailed in to the board.

## CAMPFIRE CORNER

AUTUMN WALL-EYES

Two methods of live-bait fishing particularly successful hereabouts this fall. One way is drift fishing, the other is trolling with a triangle rig. A breeze is a necessary adjunct to the former, but you can practice the latter in any sort of wind between a dead calm and a gale with fair prospects of getting results.

At this season of the year you don't need to get up before daybreak to do your fishing, nor do you have to stay out until after dark, but I've noticed that the fisherman who's on the water before 10 a. m. usually comes in with a longer string than the angler who confines his efforts to a few hours around noon. Night fishing with live bait has not been producing exceptional results in fact has been less productive than daylight fishing.

In drift fishing you merely let your boat drift along before the wind while you dangle a minnow over a casting rod in about 12 feet of water, preferably about sand bars or over "sunken islands". A fairly heavy sinker should be attached to your line to keep your bait within a foot or so of the bottom. When you hook a wall-eye while drift fishing it's well to anchor or right there and try your luck in that spot for a time, since wall-eyes swim in schools and where you catch one you're likely to take some more.

**Rig Device**  
In this respect fishing for wall-eyes is like angling for summer and fall crappies.  
A short section of hollowed brass rod fitted with three swivels constitutes the basis of a triangular rig. Using this device you attach one of the swivels to the end of your main line, and to each of the other swivels you affix about 18 inches of line.

To the end of one of these two short lengths you tie a dipsey sinker, and to the other you attach a minnow hook. The sinker, of course, drags along the bottom, its pear-shaped construction facilitating its passage over obstructions and through weeds.

The minnow swims freely a foot or so above the bottom. Some fishermen employ a weaker line for the sinker side of the rig than for that to which the minnow is attached, so that if the sinker is caught fast the rest of the rig can be broken off and retrieved easily. If you're trolling with an outboard motor, throw it down to its minimum speed, and if you're rowing don't exert yourself—slow going usually spells more fish.

## Italy To Be Free To Work Out Own Political Destiny

WASHINGTON, Oct. 13.—(INS)—The people of Italy had the promise of President Roosevelt today that they will be free to work out their own destiny, under a government of their own choosing when the Nazi foe is driven from their country.

"The American army—including thousands of Americans of Italian descent—entered Italy not as conquerors—but as liberators," the president said. "Their objective is military not political."

"When that military objective is accomplished—and much of it has not yet been accomplished—the Italian people will be free to work out their own destiny, under a government of their own choosing."

Mr. Roosevelt spoke from the White House during a nationwide broadcast of the Italian American Labor Council's Columbus Day dinner, in New York. Shortly before he went on the air, Attorney General Francis Biddle, representing him at the dinner, accepted the four freedoms award for the president.

Glenn Orr, Ryan avenue, reported at 8:50 p. m. yesterday his auto operated, the report said, by Miss Ann Castrucci, North Cedar street, was struck by a Ford at Highland and Wallace avenues. He maintained the Orr car was traveling south on Highland avenue when the Ford, operator not named on the report, struck the car he owned. Police directed traffic at the scene of the crash.

Some time ago the traffic light there was damaged by a truck and removed. It is being repaired.

and is now getting along fine, according to word received here.

He is the son of Mrs. Charles Sasso of 1134 A 17th street, Santa Monica.

Mr. and Mrs. McCandless celebrated their golden wedding anniversary on September 5 and received a flood of cards and gifts of congratulation from friends here.

Ammonia added to water will help clean grease from oven interiors.

**NOTAIGIA**  
DETROIT—(INS)—A coonskin cap or a long-barrelled squirrel gun would have been legal antiques to a hill country's nostalgia, but a liquor still? No. So ruled a Federal court judge when Charles Vance, 40, received six months in jail and a \$500 fine. Vance declared he set up the still for his own personal use but admitted a Kentucky arrest on moonshine charges.
